The board shall from time to time review the sufficiency of this amount and recommend to the legislature the adjustments that it considers appropriate.

Plan comparisons must, to the greatest extent possible, be based upon real rates of return on investments available in each retirement plan.

(b) If an educational program is conducted by a contractor, the board shall monitor the performance of the contract to ensure that the program is conducted in accordance with the contract, applicable law, and the rules of the board. A contractor hired to provide educational services pursuant to this section may not be the same entity contracted to provide other services for the defined contribution plan or the optional retirement program.

(h) payout options available in each of the retirement plans.

(d) significant plan changes;

(e) contribution rates and plan funding status; and

The plan must be established as a pension plan for the exclusive benefit of members and their beneficiaries and as a "qualified plan" pursuant to section 401(a) of the Internal Revenue Code and its implementing regulations. Retirement accounts must be established for each member of the defined contribution plan. Assets of the plan must be held in trust. The plan is established in addition to any retirement, pension, deferred compensation, or other benefit plan administered by the state or a political subdivision.

(2) The board shall contract for plan administration and use a competitive bidding process when contracting for consulting, educational, investment, recordkeeping, or other services for the plan.

(3) The board shall contract for a qualified consultant to assist in preparation of the request for bid or request for proposal for plan services.

Section 44. Legislative intent. It is the intent of the legislature that, in implementing and administering the defined contribution plan:

HeinOnline -- 1999 vol. II 1896 1999

(2) the administrative structure for the plan be configured in an economical and efficient manner;

(3) administration and services for the plan be contracted out to the extent possible, but that the board provide for the diligent oversight of the contracts;

(4) reasonable participant services be provided for and that fees be commensurate with the services;

(5) lines of communication and responsibilities be clearly established so that employers or their personnel and payroll officers do not advise members about plan choices or investment alternatives; and

Section 45. Board powers and duties — rulemaking. (1) The board has the powers and shall perform the duties regarding the defined contribution plan as provided in 19-2-403, as applicable. The board may also exercise the powers and shall perform the duties provided in this chapter.

(a) matters necessary for the treatment of the plan as a qualified plan under applicable sections of the Internal Revenue Code;

(b) the treatment of dormant or inactive accounts;

(c) the security and privacy of information maintained by the board concerning a member's investments, as required by applicable law;

(d) minimum asset, re. rve, insurance, or other security requirements intended to ensure the solvency of a contractor used by the board for investment services; and

HeinOnline -- 1999 vol. II 1897 1999

(b) a member who is initially hired into covered employment on or after the date that the defined contribution plan becomes effective may, within 12 months of the member's hire date, elect to become a member of the plan.

(2) (a) Elections made pursuant to this section must be made on a form prescribed by the board.

(b) A member failing to make an election prescribed by this section remains a memher of the defined benefit plan.

(c) An election under this section, including the default election pursuant to subsection (2)(b), is a one-time irrevocable election. Subject to [section 49], this subsection (2)(c) does not prohibit a new election after an employee has terminated membership in either plan and returned to covered employment.

(3) A member in either the defined benefit plan or the defined contribution plan who becomes inactive after an election under this section and who returns to active membership remains in the plan previously elected.

(4) A system member may not simultaneously be a member of the defined benefit plan and the defined contribution plan and must be a member of either the defined benefit plan or the defined contribution plan. A period of service may not be credited in more than one retirement plan within the system.

(5) The provisions of [sections 42 through 63] do not prohibit the board from adopting rules te allow an employee to elect the defined contrihution plan on the first day of covered employment.

(6) A member of the defined benefit plan who is subject to a family law order pursuant to 19-2-907 or an execution or income-withholding order pursuant to 19-2-909 may not transfer to the defined contribution plan unless the order is modified to apply under the defined contribution plan or, for university employees making an election pursuant to [section 48], the optional retirement program.

Seetion 48. Plan choices for memhers employed by university system — amount available to transfer — effect on rights. (1) If an employee of the university system, as defined in 5-20-201, is eligible to make an election under [sections 42 through 63] to transfer to the defined contribution plan, the employee may, instead of electing the plan, make a one-time irrevocable election on a form prescribed by the board to transfer membership to the university system's optional retirement program provided for under chapter 21 of this title.

(2) For an employee electing to transfer to the optional retirement program, the board shall transfer to the optional retirement program the amount that the employee would have been able to transfer to the defined contribution plan under [section 50].

HeinOnline -- 1999 vol. II 1898 1999

(3) An election to become a member of the optional retirement program pursuant to this section is a waiver of all rights and benefits under the public employees' retirement system.

Section 49. Reinstatement of plan membership — purchase of prior service in defined benefit plan. (1) (a) An employee who terminated membership in the defined benefit plan, the defined contribution plan, or the optional retirement program after making an election pursuant to [section 47] or [section 48] and who returns to covered employment after a break in service of less than 24 consecutive months shall become a member of the plan that the member last selected and is not eligible for a new plan choice election.

(b) Except as provided in subsection (2), an employee who terminated membership in either the defined benefit plan, the defined contribution plan, or the optional retirement program after making an election pursuant to [section 47] or [section 48] and who returns to covered employment after a break in service of 24 consecutive months or more is eligible to make a plan choice election as if the employee were initially hired as provided for in [section 47(1)(b)].

(2) (a) An employee who returns to covered employment after terminating plan membership in the defined contribution plan or the optional retirement program shall return to the plan previously selected if the employee has accessed money derived from the employee's former retirement account by:

(i) receiving a lump-sum distribution of the member's former retirement account, unless the distribution was forced pursuant to [section 59(1)(b)];

(ii) receiving a lump-sum distribution from an account outside the defined contribution plan that has at any time received a transfer of funds from the member's former retirement account or any account to which the member has transferred funds from a former retirement account; or

(iii) receiving a regular benefit, payment, or distribution from an account outside the defined contribution plan in which there is money from the member's former retirement account.

(b) For the purposes of this subsection (2), "retirement account" also includes an employee's account under the optional retirement program.

(3) (a) An employee who returns to covered employment after terminating membership in the defined benefit plan, who is eligible to make a plan choice, and who elects to join the defined benefit plan may reinstate prior membership service as provided in 19-2-603.

(b) An employee who returns to covered employment after terminating membership in the defined contribution plan or the optional retirement program, who is eligible to make a plan choice, and who elects to join the defined benefit plan may purchase prior membership service by paying to the board the full actuarial cost of the service as of the latest actuarial valuation of the defined benefit plan. The employee may not purchase membership service under this section in excess of the employee's length of service as a member of the defined contribution plan or the optional retirement program.

Section 50. Amount available to transfer. (1) (a) For an employee who was a system member on the day before the effective date of the defined contribution plan and who elects to transfer to the plan, the board shall transfer from the defined benefit plan to the member's retirement account the employee's contributions and the percentage of the employer's contributions specified in

HeinOnline -- 1999 vol. II 1899 1999

subsection (1)(b), plus 8% compounded annual interest on the total of the employee and employer contributions.

(b) Based on the contribution amount historically available to pay unfunded liabilities in the defined benefit plan and the transferring member's years of service, the porcentage of the employer contributions that may be transferred are as follows:

Years of service	Percentage of employer contributions available to transfer
Less than 5 years	65.53%
5 to 9 years	58.59%
10 to 14 years	55.26%
15 to 19 years	55.42%
20 or more years	57.53%

(2) For an employee hired on or after the effective date of the defined contribution plan who elects to become a member of the plan, the board shall transfer from the defined benefit plan to the member's retirement account an amount equal to the amount that would have been credited to the member's account pursuant to [section 53] had the employee become a plan member on the employee's hire date, plus interest credited at the actuarially assumed rate of return on the defined benefit plan assets as of the plan's latest actuarial valuation.

Section 51. Transfers or rollovers into plan — membership credit for purposes of vesting. (1) Except as provided in subsection (2), the board shall accept the transfer or rollover of assets from another qualified plan to the member's retirement account. If a member is transferring assets from another plan provided for in this title, the member must, for the purposes of becoming vested pursuant to [section 52], receive credit for the employee's prior membership service under that plan.

(2) (a) After-tax money may not be transferred or rolled over to a retirement account unless the money was contributed to the system's defined benefit plan on an after-tax basis.

(b) To the extont that the transfer or rollover is disallowed under the Internal Revenue Code provisions in effect as of the calendar year immediately preceding the date of the transfer or rollover, a member may not transfer or rollover to a retirement account contributions made under sections 403(b) and 457 of the Internal Revenue Code.

Section 52. Vesting — mandatory termination of membership — forfeitures. (1) A member is fully vested with the member's contributions and the income on those contributions from the date that the employee becomes a member of the plan, but is not considered a vested member, as defined in 19-2-303, unless the member meets the criteria under subsection (2).

(2) A member is not vested with the employer's contributions and the income on those contributions and does not attain the status of a vested member until the member has a total of 5 years of membership service under the system.

(3) A member who terminates covered employment before becoming a vested member shall terminate plan membership by removing from the plan the

HeinOnline -- 1999 vol. II 1900 1999

member's entire account balance as provided in [section 56]. The employer contributions and income on the employer's contributions in the member's retirement account are forfeited and must be allocated as provided in [section 53].

Section 53. Allocation of contributions and forfeitures. (1) Each plan member's retirement account must be credited with the employee contributions made under 19-3-315.

(2) Subject to adjustment by the board as provided in [section 54], beginning on the plan's effective date, of the employer contributions under 19-3-316:

(a) 4.49% of compensation must be allocated to the member's retirement account; and

(b) 2.37% of compensation must be allocated to the defined benefit plan as the plan choice rate.

(3) Forfeitures of employer contributions and investment income on the employer contributions may not be used to increase a member's retirement account. The board shall allocate the forfeitures under [section 52] to meet the employer contributions obligation provided under subsection (2)(a) of this section in lieu of direct contributions by the employer and shall increase the contribution amount under subsection (2)(b) of this section by the amount of the forfeitures used in lieu of the employer contributions.

Section 54. Determination and adjustment of plan choice rate and contribution allocations — rulemaking. (1) The board shall provide for the periodic review of the sufficiency of the plan choice rate and shall adjust the allocation of contributions under [section 53] as specified in this section. The board shall provide that the data necessary te comply with this section is collected and maintained for all system members.

(2) The plan choice rate set in [section 53(2)(b)] must be adjusted as provided in this section, taking into account:

(a) as determined under subsection (3), the change in the normal cost contribution rate in the defined benefit plan that is the result of member selection of the defined contribution plan;

(b) as determined under subsection (4), the anticipated reduction in defined contribution plan costs because of forfeitures; and

(c) as determined under subsection (5), the sufficiency of the plan choice rate to actuarially fund the defined contribution plan's share of the defined benefit plan's unfunded liabilities.

(3) The change in the normal cost contribution rate must be an amount equal to the difference between the normal cost contribution rate in the defined benefit plan that would have resulted if all system members remained in the defined benefit plan and the normal cost contribution rate in the defined benefit plan for the actual members of the defined benefit plan, multiplied by the covered payroll of members in the defined benefit plan, divided by the covered payroll of members in the defined contribution plan. The measurements under this subsection must be based on the defined benefit plan in effect on the effective date of the defined contribution plan until the board determines that the defined benefit plan has been amended in a manner that significantly affects plan choices available to system members. After a board determination that the defined benefit plan has been significantly changed, the measurements in this subsection with respect to

HeinOnline -- 1999 vol. II 1901 1999

members entering the system after the significant change must be made on the basis of the defined benefit plan, as amended.

(4) The anticipated reduction in defined contribution plan costs as a result of forfeitures under [section 52] must be determined as the amount of forfeitures expected during the next biennium based on actual forfeitures in the preceding biennium, adjusted by taking into account the gains or losses during the preceding biennium resulting from forfeitures of greater or lesser amounts than expected, divided by twice the covered payroll of members of the defined contribution plan.

(5) The sufficiency of the plan choice rate to actuarially fund the appropriate share of the defined benefit plan's unfunded liabilities must be determined as follows:

(a) The board shall determine the number of years required to actuarially fund the defined benefit plan's unfunded liabilities as of the June 30, 1998, actuarial valuation, which must be the initial schedule for the defined contribution plan to actuarially fund the plan's share of the unfunded liabilities. The board shall reduce the schedule by 1 year each biennium.

(b) During each subsequent actuarial valuation of the defined benefit plan conducted pursuant to 19-2-405, the board shall determine whether the plan choice rate minus the sum of the amounts provided in subsections (2)(a) and (2)(b) of this section is sufficient to pay the unfunded liability obligations within the schedule determined under subsection (5)(a) of this section. If the amount is insufficient to fund the liability over a period of 10 years longer than the scheduled period or is more than sufficient to fund the liability over a period of 10 years earlier than the scheduled period, the board shall determine to the nearest 0.1% the amount of the increase or decrease in the plan choice rate that is required to actuarially fund the liabilities according to the established schedule.

(6) If the board determines that the plan choice rate should be increased or decreased, the plan choice rate under [section 53(2)(b)] must be increased or decreased accordingly. If the plan choice rate is increased, the allocation of employer contributions to member accounts under [section 53(2)(a)] must be decreased by that amount. If the plan choice rate is decreased, the allocation of employer contributions to member accounts under [section 53(2)(b)] must be increased by that amount.

(5) In determining whether rates comply with standards under subsection (1), consideration must be given to:

(a) past and prospective loss experience within and outside Montana, in accordance with accepted actuarial principles;

(b) catastrophe hazards and contingencies;

(7) The rate may contain provisions of contingencies and an allowance permitting a reasonable profit. In determining the reasonableness of a profit, consideration must be given to all investment income attributable to premiums and the reserves associated witb those premiums.

(8) The commissioner may investigate and determine whether rates in Montana are excessive, inadequate, or unfairly discriminatory. In any investigation and determination, the commissioner shall also consider the factors specified in 33-16-1020."

(2) A plan for tbe payment of dividends, savings, or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members, or subscribers is not a rating plan or system. *A plan for the payment of dividends, savings, or unabsorbed premium deposits does not relieve an insurer from complying with any requirement of this chapter regarding rating plans or systems.*

(3) It is an unfair trade practice under 33-18-1003 to make the payment of a dividend or any portion of it conditioned upon renewal of the policy or contract."

(a) The index rate for a rating period for any class of business may not exceed the index rate for any other class of business by more than 20%.

(b) For each class of business, the premium rates charged during a rating period to small employers with similar case characteristics for the same or similar coverage or the rates that could be charged to the employer under the rating system for that class of business may not vary from the index rate by more than 25% of the index rate.

(c) The percentage increase in the premium rate charged to a small employer for a new rating period may not exceed the sum of the following:

(i) the percentage change in the new business premium rate measured from the first day of the prior rating period to the first day of the new rating period; in the case of a health benefit plan into which the small employer carrier is no longer enrolling new small employers, the small employer carrier shall use the percentage change in the base premium rate, provided that the change does not exceed, on a percentage basis, the change in the new business premium rate for the most similar health benefit plan into which the small employer carrier is actively enrolling new small employers;

(ii) any adjustment, not to exceed 15% annually and adjusted pro rata for rating periods of less than 1 year, because of the claims experience, health status, or duration of coverage of the employees or dependents of the small employer, as determined from the small employer carrier's rate manual for the class of business; and

HeinOnline -- 1999 vol. II 1960 1999

(iii) any adjustment because of a change in coverage or a change in the case characteristics of the small employer, as determined from the small employer carrier's rate manual for the class of business.

(d) Adjustments in rates for claims experience, health status, and duration of coverage may not be charged to individual employees or dependents. Any adjustment must be applied uniformly to the rates charged for all employees and dependents of the small employer.

(e) If a small employer carrier uses industry as a case characteristic in establishing premium rates, the rate factor associated with any industry classification may not vary from the average of the rate factors associated with all industry classifications by more than 15% of that coverage.

~~(f) In the case of health benefit plans delivered or issued for delivery prior to January 1, 1994, a premium rate for a rating period may exceed the ranges set forth in subsections (1)(a) and (1)(b) until January 1, 1997. In that case, the percentage increase in the premium rate charged to a small employer for a new rating period may not exceed the sum of the following:~~

~~(i) the percentage change in the new business premium rate measured from the first day of the prior rating period to the first day of the new rating period; in the case of a health benefit plan into which the small employer carrier is no longer enrolling new small employers, the small employer carrier shall use the percentage change in the base premium rate, provided that the change does not exceed, on a percentage basis, the change in the new business premium rate for the most similar health benefit plan into which the small employer carrier is actively enrolling new small employers; and~~

~~(g)~~*(f)* A small employer carrier shall:

(i) apply rating factors, including case characteristics, consistently with respect to all small employers in a class of business. Rating factors must produce premiums for identical groups that differ only by the amounts attributable to plan design and that do not reflect differences because of the nature of the groups. (ii) treat all health benefit plans issued or renewed in the same calendar month as having the same rating period.

~~(h)~~*(g)* For the purposes of this subsection (1), a health benefit plan that includes a restricted network provision may not be considered similar coverage to a health benefit plan that does not include a restricted network provision.

(2) A small employer carrier may not transfer a small employer involuntarily into or out of a class of business. A small employer carrier may not offer to transfer a small employer into or out of a class of business unless the offer is made to transfer all small employers in the class of business without regard to case characteristics, claims experience, health status, or duration of coverage since the insurance was issued.

(3) The commissioner may suspend for a specified period the application of subsection (1)(a) for the premium rates applicable to one or more small employers

HeinOnline -- 1999 vol. II 1961 1999

included within a class of business of a small employer carrier for one or more rating periods upon a filing by the small employer carrier and a finding by the commissioner either that the suspension is reasonable in light of the financial condition of the small employer carrier or that the suspension would enhance the fairness and efficiency of the small employer health insurance market.

(4) In connection with the offering for sale of any health benefit plan to a small employer, a small employer carrier shall make a reasonable disclosure, as part of its solicitation and sales materials, of each of the following:

(a) the extent to which premium rates for a specified small employer are established or adjusted based upon the actual or expected variation in claims costs or upon the actual or expected variation in health status of the employees of small employers and the employees' dependents;

(b) the provisions of the health benefit plan concerning the small employer carrier's right to change premium rates and the factors, other than claims experience, that affect changes in premium rates;

(c) the provisions relating to renewability of policies and contracts; and

(d) the provisions relating to any preexisting condition.

(5) (a) Each small employer carrier shall maintain at its principal place of business a complete and detailed description of its rating practices and renewal underwriting practices, including information and documentation that demonstrate that its rating methods and practices are based upon commonly accepted actuarial assumptions and are in accordance with sound actuarial principles.

(b) Each small employer carrier shall file with the commissioner annually, on or before March 15, an actuarial certification certifying that the carrier is in compliance with this part and that the rating methods of the small employer carrier are actuarially sound. The actuarial certification must be in a form and manner and must contain information as specified by the commissioner. A copy of the actuarial certification must be retained by the small employer carrier at its principal place of business.

(c) ~~The filing required in subsection (5)(b) must contain the small employer carrier's benefit value.~~

~~(d)~~ A small employer carrier shall make the information and documentation described in subsection (5)(a) available to the commissioner upon request. Except in cases of violations of the provisions of this part and except as agreed to by the small employer carrier or as ordered by a court of competent jurisdiction, the information must be considered proprietary and trade secret information and is not subject to disclosure by the commissioner to persons outside of the department.

(6) The commissioner may not require prior approval of the rating methods used by small employer carriers or the premium rates of the health benefit plans offered to small employers."

least two health benefit plans. One plan must be a basic health benefit plan, and one plan must be a standard health benefit plan.

(b) (i) A small employer carrier shall issue ~~a basic health benefit plan or a standard health benefit plan~~ *all plans marketed under this part* to any eligible small employer that applies for ~~either~~ *a* plan and agrees to make the required premium payments and to satisfy the other reasonable provisions of the health benefit plan not inconsistent with this part. ~~If, pursuant to Public Law 104-191, an agency of the United States or a court does not prohibit a small employer carrier from doing so, a small employer carrier may offer and issue a group health benefit plan other than a basic or standard plan on an underwritten basis.~~

(ii) In the case of a small employer carrier that establishes more than one class of business pursuant to 33-22-1808, the small employer carrier shall maintain and offer to eligible small employers ~~at least one basic health benefit plan and at least one standard health benefit plan~~ *all plans marketed under this part* in each established class of business. A small employer carrier may apply reasonable criteria in determining whether to accept a small employer into a class of business, provided that:

(A) the criteria are not intended to discourage or prevent acceptance of small employers applying for a health benefit plan;

(B) the criteria are not related to the health status or claims experience of the small employers' employees;

(C) the criteria are applied consistently to all small employers that apply for coverage in that class of business; and

(D) the small employer carrier provides for the acceptance of all eligible small employers into one or more classes of business.

(iii) The provisions of subsection (1)(b)(ii) may not be applied to a class of business into which the small employer carrier is no longer enrolling new small businesses.

(c) A small employer carrier that elects not to comply with the requirements of subsections (1)(a) and (1)(b) may continue to provide coverage under health benefit plans previously issued to small employers in this state for a period of no more than 7 years from October 1, 1995, if the carrier:

(i) complies with all other applicable provisions of this part, except 33-22-1810, 33-22-1813, and subsections (2) through (4) of this section; ~~and~~

(ii) does not amend or alter the benefits and coverages of the previously issued health benefit plans unless required to do so by law or rule.~~;~~ *; and*

(iii) complies with all applicable provisions of Public Law 104-91.

(2) (a) A small employer carrier shall, pursuant to 33-1-501, file the basic health benefit plans and the standard health benefit plans to be used by the small employer carrier.

(h) The commissioner may at any time, after providing notice and an opportunity for a hearing to the small employer carrier, disapprove the continued use by a small employer carrier of a basic or standard health benefit plan on the grounds that the plan does not meet the requirements of this part.

(3) Health benefit plans covering small employers must comply with the following provisions:

HeinOnline -- 1999 vol. II 1963 1999

(a) A health benefit plan may not:

(i) because of a preexisting condition, deny, exclude, or limit benefits for a covered individual for losses incurred more than 12 months following the ~~effective date of the~~ individual's *enrollment date* ~~coverage~~. A health benefit plan may not define a preexisting condition exclusion more restrictively than 33-22-140.

(ii) use a preexisting condition exclusion more restrictive than exclusions allowed under 33-22-514.

(b) A health benefit plan must waive any time period applicable to a preexisting condition exclusion or limitation period with respect to particular services for the period of time that an individual was previously covered by creditable coverage that provided benefits with respect to those services if the creditable coverage was continuous to a date not more than 63 days prior to the submission of an application for new coverage. *A health benefit plan may determine waivers of time periods applicable to preexisting condition exclusions or limitations on the basis of prior coverage of benefits within each of several classes or categories as specified in regulations implementing Public Law 104-191, rather than as provided in this subsection (3)(b).* This subsection (3)(b) does not preclude application of any waiting period applicable to all new enrollees under the health benefit plan.

(c) A health benefit plan may exclude coverage for late enrollees for 18 months or for an 18-month preexisting condition exclusion, provided that if both a period of exclusion from coverage and a preexisting condition exclusion are applicable to a late enrollee, the combined period may not exceed 18 months from the date *on which* the individual enrolls for coverage under the health benefit plan.

(d) (i) Requirements used by a small employer carrier in determining whether to provide coverage to a small employer, including requirements for minimum participation of eligible employees and minimum employer contributions, must be applied uniformly among all small employers that have the same number of eligible employees and that apply for coverage or receive coverage from the small employer carrier.

(ii) A small employer carrier may vary the application of minimum participation requirements and minimum employer contribution requirements only by the size of the small employer group.

(e) (i) If a small employer carrier offers coverage to a small employer, the small employer carrier shall offer coverage to all of the eligible employees of a small employer and their dependents. A small employer carrier may not offer coverage only to certain individuals in a small employer group or only to part of the group, except in the case of late enrollees as provided in subsection (3)(c).

(ii) A small employer carrier may not modify a ~~basic or standard health benefit~~ plan *marketed under this part* with respect to a small employer or any eligible employee or dependent, through riders, endorsements, or otherwise, to restrict or exclude coverage for certain diseases or medical conditions otherwise covered by the health benefit plan.

(iii) A small employer carrier shall secure a waiver of coverage from each eligible employee who declines, at the sole discretion of the eligible employee, an offer of coverage under a health benefit plan provided by the small employer. The waiver must be signed by the eligible employee and must certify that the

HeinOnline -- 1999 vol. II 1964 1999

employee was informed of the availability of coverage under the health benefit plan and of the penalties for late enrollment. The waiver may not require the eligible employee to disclose the reasons for declining coverage.

(iv) A small employer carrier may not issue coverage to a small employer if the carrier or a producer for the carrier has evidence that the small employer induced or pressured an eligible employee to decline coverage due to the health status or risk characteristics of the eligible employee or of the dependents of the eligible employee.

(4) (a) A small employer carrier may not be required to offer coverage or accept applications pursuant to subsection (1) in the case of the following:

(i) to an employer whose employees do not work or reside within the small employer carrier's established geographic service area for a network plan, as defined in 33-22-140; or

(ii) within an area where the small employer carrier reasonably anticipates and demonstrates to the satisfaction of the commissioner that it will not have the capacity within its established geographic service area to deliver service adequately to the members of a group because of its obligations to existing group policyholders and enrollees. The small employer carrier may not deny coverage under this subsection unless the small employer carrier acts uniformly without regard to claims experience or health status-related factors of employers, employees, or dependents.

(b) A small employer carrier may not be required to provide coverage to small employers pursuant to subsection (1) for which the commissioner determines that the small employer carrier does not have the financial reserves necessary to underwrite additional coverage and that the small employer carrier has denied coverage of small employers uniformly throughout the state and without regard to the claims experience and health status-related factors of the applicant small employer groups. The small employer carrier exempted from providing coverage under this subsection may not offer coverage to small employer groups in this state for 180 days after the date on which coverage is denied or until the small employer carrier has demonstrated to the commissioner that the small employer carrier has sufficient financial reserves to underwrite additional coverage, whichever is later."

Standards to ensure fair marketing.** (1) Each small employer carrier shall actively market health benefit plan coverage, including the basic and standard health benefit plans, to eligible small employers in the state. ~~If a small employer carrier denies coverage other than the basic or standard health benefit plans to a small employer on the basis of claims experience of the small employer or the health status or claims experience of its employees or dependents, the small employer carrier shall offer the small employer the opportunity to purchase a basic health benefit plan or a standard health benefit plan.~~

(b) The provisions of subsection (2)(a) do not apply with respect to information provided by a small employer carrier or producer to a small employer regarding the established geographic service area or a restricted network provision of a small employer carrier.

(3) (a) Except as provided in subsection (3)(b), a small employer carrier may not, directly or indirectly, enter into any contract, agreement, or arrangement with a producer that provides for or results in the compensation paid to a producer for the sale of a health benefit plan to be varied because of the health status of the employer's employees or the claims experience, industry, occupation, or geographic location of the small employer.

(b) Subsection (3)(a) does not apply with respect to a compensation arrangement that provides compensation to a producer on the basis of the percentage of a premium, provided that the percentage may not vary because of the health status of the employer's employees or the claims experience, industry, occupation, or geographic area of the small employer.

(4) A small employer carrier shall provide reasonable compensation, as provided under the plan of operation of the program, to a producer, if any, for the sale of a basic or standard health benefit plan.

(5) A small employer carrier may not terminate, fail to renew, or limit its contract or agreement of representation with a producer for any reason related to the health status of the employer's employees or the claims experience, industry, occupation, or geographic location of the small employers placed by the producer with the small employer carrier.

(6) A small employer carrier or producer may not induce or otherwise encourage a small employer to separate or otherwise exclude an employee from health coverage or benefits provided in connection with the employee's employment.

(7) Denial by a small employer carrier of ~~an application for coverage from~~ *health insurance coverage for* a small employer must be in writing and must state the reason or reasons for the denial.

(8) The commissioner may adopt rules setting forth additional standards to provide for the fair marketing and broad availability of health benefit plans to small employers in this state.

(9) (a) A violation of this section by a small employer carrier or a producer is an unfair trade practice under 33-18-102.

(b) If a small employer carrier enters into a contract, agreement, or other arrangement with an administrator who holds a certificate of registration pursuant to 33-17-603 to provide administrative, marketing, or other services related to the offering of health benefit plans to small employers in this state, the administrator is subject to this section as if the administrator were a small employer carrier."

(1) Unless it is operated by an insurer or a health service corporation as a plan, each authorized health maintenance organization shall annually on or before March 1 file with the commissioner a full and true statement of its financial condition, transactions, and affairs as of the preceding December 31. The statement must be in the general form and content required by the commissioner *and must be completed in accordance with the national association of insurance commissioners' annual statement instructions.* The statement must be verified by the oath of at least two principal officers of the health maintenance organization. (3) The commissioner may, after notice and hearing, impose a fine not to exceed $5,000 for each violation upon a director, officer, partner, member, insurance producer, or employee of a health maintenance organization who knowingly subscribes to or concurs in making or publishing an annual statement required by law that contains a material statement that is false.

(4) The commissioner may require reports considered reasonably necessary and appropriate to enable the commissioner to carry out the duties required of the commissioner under this chapter, including but not limited to a statement of operations, transactions, and affairs of a health maintenance organization operated by an insurer or a health service corporation as a plan."

Section 59. Section 33-31-216, MCA, is amended to read:

"33-31-216. Protection against insolvency. (1) Except as provided in subsections (4) through (7), each authorized health maintenance organization shall deposit with the commissioner cash, securities, or any combination of cash or securities acceptable to the commissioner in the amount set forth in this section.

(2) The amount of the deposit for a health maintenance organization during the first year of its operation is $200,000.

(3) At the beginning of each succeeding year, unless not applicable, the health maintenance organization shall deposit with the commissioner cash, securities, or any combination of cash or securities acceptable to the commissioner, in an amount equal to 4% of its estimated annual uncovered expenditures for that year.

(4) Unless not applicable, a health maintenance organization that is in operation on October 1, 1987, shall make a deposit equal to the greater of:

(a) 1% of the preceding 12 months' uncovered expenditures; or

(b) 4% of its estimated annual uncovered expenditures for each year.

(5) The commissioner may waive any of the deposit requirements set forth in subsections (1) through (4) whenever the commissioner is satisfied that:

(a) the health maintenance organization has sufficient net worth and an adequate history of generating net income to ensure its financial viability for the next year;

(b) the health maintenance organization's performance and obligations are guaranteed by an organization with sufficient net worth and an adequate history of generating net income; or

(c) the health maintenance organization's assets or its contracts with insurers, health service corporations, governments, or other organizations are reasonably sufficient to ~~assure~~ *ensure* the performance of its obligations.

(6) When a health maintenance organization achieves a net worth not including land, buildings, and equipment of at least $1 million or achieves a net worth including organization-related land, buildings, and equipment of at least $5 million, the annual deposit requirement under subsection (3) does not apply. The annual deposit requirement under subsection (3) does not apply to a health maintenance organization if the total amount of the accumulated deposit is greater than the capital requirement for the formation or admittance of a

HeinOnline -- 1999 vol. II 1972 1999

disability insurer in this state. If the health maintenance organization has a guaranteeing organization that has been in operation for at least 5 years and has a net worth not including land, buildinga, and equipment of at least $1 million or that has been in operation for at least 10 years and has a net worth including organization-related land, buildings, and equipment of at least $5 million, the annual deposit requirement under subsection (3) does not apply. If the guaranteeing organization is sponsoring more than one health maintenance organization, however, the net worth requirement is increased by a multiple equal to the number of those health maintenance organizations. This requirement to maintain a deposit in excess of the deposit required of a disability insurer does not apply during any time tbat the guaranteeing organization maintains for each health maintenance organization it sponsors a net worth at least equal to the capital and surplus requirements for a disability insurer.

(7) All income from deposits belongs to the depositing health maintenance organization and must be paid to it as it becomes available. A health maintenance organization that has made a securities deposit may withdraw the deposit or any part of it after making a substitute deposit of cash, securities, or any combination of cash or securities of equal amount and value. A health maintenance organization may not substitute securities without prior approval by the commissioner.

(8) In any year in which an annual deposit is not required of a health maintenance organization, at the health maintenance organization's request, the commissioner shall reduce the previously accumulated deposit by $100,000 for each $250,000 of net worth in excess of the amount tbat allows the healtb maintenance organization to be exempt from the annual deposit requirement. If the amount of net worth no longer supports a reduction of its required deposit, the health maintenance organization shall immediately redeposit $100,000 for each $250,000 of reduction in net worth. However, the health maintenance organization's total deposit may not be required to exceed the maximum required under this section.

(9) *(a)* ~~Unless~~ *Subject to subsection (9)(b) and unless* it is operated by an insurer or a health service corporation as a plan, each health maintenance organization must have a minimum capital of at least $200,000 in addition to any deposit requirements under this section. The capital account must be in excess of any accrued liabilities and be in the form of cash, securities, or any combination of cash or securities acceptable to the commissioner.

(b) A health maintenance organization licensed under this chapter after October 1, 1999, must have a minimum capital of at least $750,000. The amount required to be deposited with the commissioner under subsection (2) must be included in the calculation of the capital needed to meet the $750,000 minimum.

(10) Each health maintenance organization shall demonstrate that if it becomes insolvent:

(a) enrollees hospitalized on the date of insolvency will be covered until discharged; and

(b) enrollees will be entitled to similar alternate insurance coverage that does not contain any medical underwriting or preexisting limitation requirements."

[HB 530]

AN ACT REVISING CERTAIN LAWS RELATING TO ABORTION TO REMOVE OR CLARIFY CERTAIN PROVISIONS DECLARED INVALID BY THE JUDICIARY; REMOVING RESTRICTIONS ON THE PLACE OF PERFORMING AN ABORTION AND ADVERTISING; REVISING THE DEFINITION OF "PARTIAL-BIRTH ABORTION"; AND AMENDING SECTIONS 50-20-102, 50-20-109, AND 50-20-401, MCA.

WHEREAS, in Intermountain Planned Parenthood v. State of Montana, No. BDV 97-477 (First Judicial District, 1998), the District Court found the definition of "partial-birth abortion" void for reasons of vagueness.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 50-20-102, MCA, is amended to read:

"50-20-102. Statement of purpose — *findings.* *(1)* The legislature reaffirms the tradition of the state of Montana to protect every human life, whether unborn or aged, healthy or sick. In keeping with this tradition and in the spirit of our constitution, we reaffirm tbe intent to extend the protection of the laws of Montana in favor of all human life. *It is the policy of the state to preserve and protect the lives of all human beings and to provide protection for the viable human life. The protection afforded to a person by Montana's constitutional right of privacy is not absolute, but may be infringed upon by a compelling state interest. The legislature finds that a compelling state interest exists in the protection of viable life.*

(2) The legislature finds, with respect to 50-20-401, that:

(a) the United States supreme court has determined that states have a legitimate interest in protecting both a woman's health and the potentiality of human life and that each interest grows and reaches a compelling point at various stages of a woman's approach to the full term of a pregnancy;

(b) the court has also determined that subsequent to viability, the state in promoting its interest in the potentiality of human life may, if it chooses, regulate and even proscribe abortion except when necessary, in appropriate medical judgment, for the preservation of the life or health of the woman;

(c) the holdings referred to in subsections (2)(a) and (2)(b) apply to unborn persons in order to extend to unborn persons the inalienable right to defend their lives and liberties;

(d) absent clear proof that an abortion is necessary to save the life of the woman, the abortion of a viable person is an infringement of that person's rights; and

(e) the state has a duty to protect innocent life and that duty has grown to a compelling point with respect to partial-birth abortion."

Section 2. Section 50-20-109, MCA, is amended to read:

"50-20-109. Control of practice of abortion. (1) Except as provided in 50-20-401, an abortion may not be performed within the state of Montana:

(a) except by a licensed physician;

~~(b) after the first 3 months of pregnancy, except in a hospital licensed by the department;~~

~~(c)~~*(b)* after viability of the fetus, ~~unless in appropriate medical judgment, the abortion is necessary to preserve the life or health of the mother~~ *except as provided in subsection (2).*

(2) An abortion under subsection ~~(1)(c)~~ *(1)(b)* may ~~only~~ be performed *only to preserve the life or health of the mother and only* if:

(a) the ~~foregoing~~ judgment of the physician who is to perform the abortion is first certified in writing by the physician, setting forth in detail the facts relied upon in making the judgment; and

(b) two other licensed physicians have first examined the patient and concurred in writing with the judgment. The certification and concurrence in this subsection (2)(h) are not required if a licensed physician certifies that the abortion is necessary to preserve the life of the mother.

(3) The timing and procedure used in performing an abortion under subsection ~~(1)(c)~~ *(1)(b)* must be such that the viability of the fetus is not intentionally or negligently endangered, as the term "negligently" is defined in 45-2-101. The fetus may be intentionally endangered or destroyed only if necessary to preserve the life or health of the mother.

~~(4) A physician, facility, or other person or agency may not engage in solicitation, advertising, or other form of communication that has the purpose of inviting, inducing, or attracting a person to come to the physician, facility, or other person or agency to have an abortion or to purchase abortifacients.~~

(4) For purposes of this section, "health" means the prevention of a risk of substantial and irreversible impairment of a major bodily function.

(5) The utilization plan of a physician assistant-certified may not provide for performing abortions.

(6) Violation of subsections (1) through (3) and (5) is a felony. ~~Violation of subsection (4) is a misdemeanor.~~"

Section 3. Section 50-20-401, MCA, is amended to read:

"50-20-401. Offense of partial-birth abortion — exception — definitions — penalties. (1) Except as provided in this section, a person commits an offense if the person purposely, knowingly, or negligently causes a partial-birth abortion.

(2) Subsection (1) does not apply to:

(a) a partial-birth abortion caused to save the life of a woman because the woman's life is endangered by a physical disorder, illness, or injury, including a life-endangering condition caused by or arising from the pregnancy itself, if no other medical procedure would save the life of the woman; or

(b) the woman upon whom a partial-birth abortion is performed.

(3) As used in this section, the following definitions apply:

(a) "Knowingly" has the meaning provided in 45-2-101.

(b) "Negligently" has the meaning provided in 45-2-101.

(c) *(i)* "Partial-birth abortion" means an abortion in which the person performing the abortion partially vaginally delivers a living human fetus before killing the fetus and completing the delivery.

HeinOnline -- 1999 vol. II 2000 1999

(ii) A procedure that constitutes a partial-birth abortion is one in which the following steps occur:

(A) the living fetus is removed intact from the uterus until only the head remains in the uterus;

(B) all or a part of the intracranial contents of the fetus are evacuated;

(C) the head of the fetus is compressed; and

(D) following fetal demise, the fetus is removed from the birth canal.

(d) "Purposely" has the meaning provided in 45-2-101.

(4) A person committing the offense provided for in subsection (1) is guilty of a felony and shall be punished by:

(a) a fine of not more than $50,000;

(b) imprisonment in a correctional facility for a term of not less than 5 years and not more than 10 years; or

(c) both fine and imprisonment as provided in subsections (4)(a) and (4)(b); and

(d) permanent revocation of the license of the physician performing the partial-birth abortion. The provisions of 37-1-203 and 37-1-205 do not apply to a physician whose license is revoked pursuant to this section."

Section 4. Severability. If a part of [this act] is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of [this act] is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

The approved production decline rate must be certified in writing to the department by the board. In that certification, the board shall identify the project

HeinOnline -- 1999 vol. II 2014 1999

area and shall specify the projected rate of future oil production by calendar year and by calendar quarter within each year. The certified rate of future oil production must be used to determine the volume of incremental production that qualifies for the tax rate imposed under 15-36-304(4)(d).

(19) "Qualifying production" means the first 24 months of production of oil or natural gas from any post-1985 well drilled after March 31, 1995, or from a well that has not produced oil or natural gas during the 5 years immediately preceding the first month of qualifying production. Qualifying production does not include oil production from a horizontally recompleted well.

(20) "Secondary recovery project" means an enhanced recovery project, other than a tertiary recovery project, that commenced or was expanded after December 31, 1993, and before January 1, 2002, and meets each of the following requirements:

(a) The project must be certified as a secondary recovery project to the department by the board. The certification may be extended only after notice and hearing in accordance with Title 2, chapter 4.

(b) The property to be affected by the project must be adequately delineated according to the specifications required by the board.

(c) The project must involve the application of secondary recovery methods that can reasonably be expected to result in an increase, determined by the board to be significant in light of all the facts and circumstances, in the amount of oil that may potentially be recovered. For purposes of this part, secondary recovery methods include but are not limited to:

(i) the injection of water into the producing formation for the purposes of maintaining pressure in that formation or for the purpose of increasing the flow of oil from the producing formation to a producing well bore; or

(ii) any other method approved by the board as a secondary recovery method.

(21) "Stripper exemption" means the first 3 barrels a day for petroleum and other mineral or crude oil produced by a stripper well if the average price per barrel of oil as reported in the Wall Street Journal for west Texas intermediate crude oil during a calendar quarter is less than $30 a barrel. If the price of oil is equal to or greater than $30 a barrel in a calendar quarter, there is no stripper exemption in that quarter. The average price per barrel is computed by dividing the sum of the daily price for west Texas intermediate crude oil as reported in the Wall Street Journal for the calendar quarter by the number of days on which the price was reported in the quarter.

(22) "Stripper natural gas" means the natural gas produced from any well that produces less than 60,000 cubic feet of natural gas a day during the calendar year immediately preceding the current year. Production must be determined by dividing the amount of production from a lease or unitized area for the year immediately preceding the current calendar year by the number of producing wells in the lease or unitized area and by dividing the resulting quotient by 365.

(23) "Stripper oil" means the oil produced from any well that produces less than 10 barrels a day for the calendar year immediately preceding the current year. Production must be determined by dividing the amount of production from a lease or unitized area for the year immediately preceding the current calendar year by the number of producing wells in the lease or unitized area and by dividing the resulting quotient by 365.

HeinOnline -- 1999 vol. II 2015 1999

(24) "Stripper well exemption" means petroleum and other mineral or crude oil produced by a stripper well that produces 3 barrels a day or less [when the average price per barrel of oil as reported in the Wall Street Journal for west Texas intermediate crude oil during a calendar quarter is less than $30 a barrel. If the price of oil is equal to or greater than $30 a barrel in a calendar quarter, there is no stripper well exemption in that quarter. However, the stripper exemption would apply subject to the conditions of subsection (21). The average price per barrel is computed by dividing the sum of the daily price for west Texas intermediate crude oil as reported in the Wall Street Journal for the calendar quarter by the number of days on which the price was reported in the quarter].

~~(24)~~*(25)* "Tertiary recovery project" means an enhanced recovery project, other than a secondary recovery project, using a tertiary recovery method that meets the following requirements:

(a) The project must be certified as a tertiary recovery project to the department by the board. The certification may be extended only after notice and hearing in accordance with Title 2, chapter 4.

(b) The property to be affected by the project must be adequately delineated in the certification according to the specifications required by the board.

(c) The project must involve the application of one or more tertiary recovery methods that can reasonably be expected to result in an increase, determined by the board to be significant in light of all the facts and circumstances, in the amount of crude oil that may potentially be recovered. For purposes of this part, tertiary recovery methods include but are not limited to:

(i) miscible fluid displacement;

(ii) steam drive injection;

(iii) micellar/emulsion flooding;

(iv) in situ combustion;

(v) polymer augmented water flooding;

(vi) cyclic steam injection;

(vii) alkaline or caustic flooding;

(viii) carbon dioxide water flooding;

(ix) immiscible carbon dioxide displacement; or

(x) any other method approved by the board as a tertiary recovery method.

~~(25)~~*(26)* "Well" or "wells" means a single well or a group of wells in one field or production unit and under the control of one operator or producer.

~~(25)~~*(27)* "Working interest owner" means the owner of an interest in an oil or natural gas well or wells who bears any portion of the exploration, development, and operating costs of the well or wells."

(11) (a) For the purpose of distribution of the oil and natural gas production taxes from pre-1985 wells, the department shall each calendar quarter adjust the unit value determined under 15-36-323 according to the ratio that the oil and natural gas production taxes from pre-1985 wells collected during the calendar quarter for which the distribution occurs plus penalties and interest on delinquent oil and natural gas production taxes from pre-1985 wells bears to the total liability for the oil and natural gas production taxes from pre-1985 wells for the quarter for which the distribution occurs. The amount of oil and natural gas production taxes distributions must be calculated and distributed as follows:

(i) By the dates referrod to in subsection (12), the department shall calculate and distribute to each eligible county the amount of oil and natural gas production taxes from pre-1985 wells for the quarter, determined by multiplying the unit value, as adjusted in this subsection (11)(a), by the units of production on which oil and natural gas production taxes from pre-1985 wells were owed for the calendar quarter for which the distribution occurs.

(ii) If the allocation in subsection (11)(c)(i) exceeds the total budget for a taxing unit, the commissioners may direct the county treasurer to allocate the excess to any taxing unit within the county.

(d) The board of trustees of an elementary or high school district may reallocate the oil and natural gas production taxes distributed to the district by the county treasurer under the following conditions:

(i) The district shall first allocate the oil and natural gas production taxes to the budgeted funds of the district in the same proportion that all other property tax proceeds were distributed in the district in fiscal year 1990.

(ii) If the allocation under subsection (11)(d)(i) exceeds the total budget for a fund, the trustees may allocate the excess to any budgeted fund of the school district.

(b) The oil and natural gas production taxes distributed under subsection (11)(b) that are required for the 6-mill university levy imposed under 20-25-423 and for the county equalization levies impesed under 20-9-331 and 20-9-333, as those sections read on July 1, 1989, must be remitted by the county treasurer to the state treasurer.

(13) The department shall provide to each county by May 31 of each year the amount of gross taxable value represented by all types of production taxed under 15-36-304 for the previous calendar year multiplied by 60%. The resulting value must be treated as taxable value for county classification purposes and for county bonding purposes.

(14) (a) In the event that the board of oil and gas conservation revises the privilege and license tax pursuant to 82-11-131, tbe department shall, by rule, change the formula under this section for distribution of taxes collected under 15-36-304. The revised formula must provide for the distribution of taxes in an amount equal to the rate adopted by the board of oil and gas conservation for the expenses of the board.

(b) Before the department adopts a rule pursuant to subsection (14)(a), it shall present the proposed rule to the revenue oversight committee.

(15) The distribution to taxing units under this section is statutorily appropriated as provided in 17-7-502."

(1) The proceeds of the tax imposed by 15-65-111 must, in accordance with the provisions of 15-1-501, be deposited in an account in the state special revenue fund to the credit of the department ~~of revenue~~. The department may spend from that account in accordance with an expenditure appropriation by the legislature based on an estimate of the costs of collecting and disbursing the proceeds of the tax. Before allocating the balance of the tax proceeds in accordance with the provisions of 15-1-501 and as provided in subsections (1)(a) through (1)(e) of this section, the department shall determine the expenditures by state agencies for in-state lodging for each reporting period and deduct 4% of that amount from the tax proceeds received each reporting period. The amount deducted must be deposited in the ~~general fund~~ *fund or funds from which in-state lodging expenditures were paid by state agencies*. The amount of $400,000 each year must be deposited in the Montana heritage preservation

(e) (i) except as provided in subsection (1)(e)(ii), 22.5% to be distributed by the department to regional nonprofit tourism corporations in the ratio of the proceeds collected in each tourism region to the total proceeds collected statewide; and

(ii) if 22.5% of the proceeds collected annually within the limits of a city or consolidated city-county exceeds $35,000, 50% of the amount available for distribution to the regional nonprofit tourism corporation in the region where the city or consolidated city-county is located, to be distributed to the nonprofit convention and visitors bureau in that city or consolidated city-county.

(2) If a city or consolidated city-county qualifies under this section for funds but fails to either recognize a nonprofit convention and visitors bureau or submit and gain approval for an annual marketing plan as required in 15-65-122, then those funds must be allocated to the regional nonprofit tourism corporation in the region in which the city or consolidated city-county is located.

(3) If a regional nonprofit tourism corporation fails to submit and gain approval for an annual marketing plan as required in 15-65-122, then those funds otherwise allocated to the regional nonprofit tourism corporation may be used by the department of commerce for tourism promotion and promotion of the state as a location for the production of motion pictures and television commercials. Be it enacted by the Legislature of the State of Montana:

Section 1. Short title. [Sections 1 through 20] may be cited as the "Regional Water and Wastewater Authority Act".

Section 2. Purpose. (1) It is the purpose of [sections 1 through 20] to permit certain public agencies to make the most efficient use of their powers relating to public water supplies and the transportation and treatment of wastewater by enabling them to cooperate with other public agencies on a basis of mutual advantage and to provide services and facilities to participating public agencies. It is also the purpose of [sections 1 through 20] to provide for the establishment of a public body, corporate and politic, that is known as a regional water authority or, when appropriate, a regional wastewater authority or regional water and wastewater authority. The function of the regional water authority is to secure a source of water on a scale larger than is feasible for individual public agencies acting alone and to sell the water to public service districts, municipalities, publicly and privately owned water utilities, and others. The function of the regional wastewater authority is to enable public agencies to join together to provide the most economical method of transportation and treatment of wastewater and to provide the transportation and treatment services to public service districts, municipalities, publicly and privately owned wastewater utilities, and others. The function of the regional water and wastewater authority is to enable public agencies to join together to carry out the joint functions of both a regional water authority and a regional wastewater authority.

(2) In addition to the purposes for which it may have originally been created, any authority created pursuant to [sections 1 through 20] may enter into agreements with public agencies, privately owned utilities, and other authorities for the provision of related services, including but not limited to the following:

(a) administration;

(b) operation and maintenance; and

(c) billing and collection.

Section 3. Definitions. For the purposes of [sections 1 through 20], the following definitions apply:

(1) "Authority" means any regional water authority, regional wastewater authority, or regional water and wastewater authority organized pursuant to the provisions of [sections 1 through 20].

HeinOnline -- 1999 vol. II 2058 1999

(2) "Public agency" means any municipality, county, water and sewer district, or other political subdivision of this state.

Section 4. Joint exercise of powers by certain public agencies — agreements among agencies — filing of agreement — prohibition against competition — retirement of bonds. (1) Any powers, privileges, or authority of a public agency of this state relating to public water supplies or the transportation or treatment of wastewater may be exercised jointly with any other public agency of this state or with any agency of the United States to the extent that the laws of the United States permit. An agency of the state government when acting jointly with any public or private agency may exercise all of the powers, privileges, and authority conferred by [sections 1 through 20] upon a public agency.

(2) A public agency may enter into agreements with one or more other public agencies for the purpose of organizing an authority. Appropriate action by ordinance, resolution, or otherwise pursuant to law of the governing bodies of the participating public agencies is necessary before any agreement may take effect.

(3) An agreement must specify the following:

(a) its duration;

(b) the precise organization, composition, and nature of the authority created, together with the powers delegated to the authority;

(c) its purpose or purposes;

(d) the manner of financing for the authority and of establishing and maintaining a budget for the authority;

(e) the permissible methods for partial or complete termination of the agreement and for disposing of property upon partial or complete termination;

(f) the manner of acquiring, holding, and disposing of real and personal property of the autbority; and

(g) any other necessary and proper matters.

(4) An agreement may be amended to include additional public agencies by consent of two-thirds of the signatories to the agreement, if the terms of the agreement are not changed. Otherwise, a new agreement with the new public agency must be made. When only two public agencies form an authority, both parties shall consent to the amendment of the agreement to include additional public agencies.

(5) Prior to taking effect, an agreement made under [sections 1 through 20] must be filed with the clerk of the county commission of each county in which a member of the authority is located and the agreement then must also be filed with the secretary of state, accompanied by a certificate from the clerk of the county commission of the county or counties where filed, stating that the agreement has been filed in that county.

(6) A public agency that enters into an agreement made under [sections 1 through 20] may not offer or provide water or wastewater services in competition with another public agency entering into the agreement.

(7) A public agency that enters into an agreement made under [sections 1 through 20] may not withdraw from the agreement until the outstanding bonded

indebtedness of the authority is retired or the bondholders are otherwise protected.

Section 5. Furnishing of funds, personnel, or services by certain public agencies — agreements for purchase, sale, distribution, transmission, transportation, and treatment of water or wastewater — terms and conditions. A public agency entering into an agreement pursuant to [sections 1 through 20] may appropriate funds and may sell, lease, give, or otherwise supply to the authority personnel or services for the operation of the authority as may be within its legal power to furnish. A public agency, whether or not a party to an agreement pursuant to [sections 1 through 20], and a publicly or privately owned water distribution company may enter into contracts with an authority, created pursuant to [sections 1 through 20], for the purchase of water from the authority or the sale of water to the authority, for the treatment of water by either party, and for the distribution or transmission of water by either party. The authority may enter into the contracts. A public agency, whether or not a party to an agreement pursuant to [sections 1 through 20], and a publicly or privately owned wastewater transportation or treatment system may enter into contracts with an authority, created pursuant to [sections 1 through 20], for the transportation and treatment of wastewater by either party. The authority may enter into the contracts, subject to the prior approval of the public service commission, if the privately owned wastewater transportation or treatment system is subject to the jurisdiction of the public service commission. However, if the public service commission has not acted on a proposed contract within 90 days of its filing, approval is considered to have been granted. A contract may include an agreement for the purchase of water not actually received or the treatment of wastewater not actually treated. A contract may not be for a period in excess of 40 years, but renewal options may be included in the contract. The obligations of a public agency under a contract must be payable solely from the revenue produced from the public agency's water or wastewater system, and the public service commission, in the case of a water system whose rates are subject to its jurisdiction, shall permit the water system to recover through its rates revenue sufficient to meet its obligations under the agreement.

Section 6. Declaration of authority organization — when public body, corporate and politic. Upon filing with the secretary of state, the secretary of state shall declare the authority organized and give it the corporate name of regional water authority number ...., regional wastewater authority number ...., or regional water and wastewater authority number ...., as appropriate. Upon assignment of the designation, the authority is a public body, corporate and politic.

Section 7. Governing body — appointments — terms of members — voting rights. (1) The governing body of the authority shall consist of not less than three persons selected by the participating public agencies. Each participating public agency shall appoint at least one member. Each member's full term may not be less than 1 year or more than 4 years, and initial terms must be staggered in accordance with procedures set forth in the agreement provided for in [section 4] and amendments to the agreement. In the case of an authority that is made up by the agreement of two public agencies, each public agency shall appoint two representatives to the governing body.

(2) The manner of selection of the governing body and terms of office must be set forth in the agreement provided for in [section 4] and amendments to the

(3) Each member has one vote in any matter that comes before the authority for decision. However, the member agencies shall, in the original agreement establishing the authority, set forth any special weighing of votes based upon population served, volumes of water purchased, volumes of wastewater treated, numbers of customers, or some other criterion that the authority considers appropriate for maintaining fairness in the decisions and operations of the authority.

Section 8. Meetings of governing body — annual audit. The governing body of the authority shall meet as often as the needs of the authority require, but not less frequently than on a quarterly basis. The authority is subject to the provisions of Title 2, chapter 3, regarding open meeting laws and public participation. The governing body shall cause an annual audit of the financial records of the authority to be made. The cost of the audit must be paid by the authority. The authority is considered a local government entity for purposes of Title 2, chapter 7, part 5, and audits must comply with the provisions of that part.

Section 9. Powers of governing body. (1) For the purpose of providing a water supply, transportation facilities, or treatment system to the participating public agencies and others, the governing body of the authority has the powers, authorities, and privileges provided for in this section.

However, the authority is subject to the same statutory requirements for competitive bidding and procurement contracts as would be applicable to any member public agency.

(5) The governing body may borrow money and evidence the borrowing by warrants, notes, or bonds provided for in [sections 1 through 20] and may refund the indebtedness by the issuance of refunding obligations.

However, in the case of a regional water and wastewater authority, the statutory lien created hy this section is a lien only on the revenue of that service funded by the proceeds of the sale of the bonds, it being understood that the combined authority shall maintain separate books and records for its water and wastewater operations. The bonds may be issued in one or more series, may hear a date or dates, may mature at a time or times not exceeding 40 years from their respective dates, may bear interest at a rate not exceeding 2% above the interest rate on treasury notes, bills, or bonds of the same term as the term of the bond or bonds the week of closing on the bond or bonds as reported by the treasury of the United States, may be payable at the times, may be in the form, may carry registration privileges, may be executed in the manner, may be payable at a place or places, may be subject to terms of redemption with or without premium, may be declared or become due before the maturity date, may be authenticated in any manner and upon compliance with the conditions, and may contain terms and covenants that may be provided by resolution or resolutions of the governing body of the authority. (a) that the small miner will not pollute or contaminate any stream;

(b) that the small miner will provide protection for human and animal life through the installation of bulkheads installed over safety collars and the installation of doors on tunnel portals;

(c) that the small miner will provide a map locating the miner's mining operations. The map must be of a size and scale determined by the department.

HeinOnline -- 1999 vol. II 2114 1999

(d) if the small miner's operations are placer or dredge mining, that the small miner shall salvage and protect all soil materials for use in reclamation of that site and shall reclaim all land disturbed by the operations to comparable utility and stability as that of adjacent areas.

(2) For small-miner exemptions obtained after September 30, 1985, a small miner may not obtain or continue an exemption under subsection (1) unless the small miner annually certifies in writing:

(a) if the small miner is an individual, that:

(i) no business association or partnership of which the small miner is a member or partner has a small-miner exemption; and

(ii) no corporation of which the small miner is an officer, director, or owner of record of 25% or more of any class of voting stock has a small-miner exemption; or

(b) if the small miner is a partnership or business association, that:

(i) none of the associates or partners holds a small-miner exemption; and

(ii) none of the associates or partners is an officer, director, or owner of 25% or more of any class of voting stock of a corporation that has a small-miner exemption; or

(c) if the small miner is a corporation, that no officer, director, or owner of record of 25% or more of any class of voting stock of the corporation:

(i) holds a small-miner exemption;

(ii) is a member or partner in a business association or partnership that holds a small-miner exemption;

(iii) is an officer, director, or owner of record of 25% or more of any class of voting stock of another corporation that holds a small-miner exemption.

(3) A small miner whose operations are placer or dredge mining shall post a performance bond equal to the state's documented cost estimate of reclaiming the disturbed land, although the bond may not exceed $10,000 ~~per~~ *for each* operation. If the small miner has posted a bond for reclamation with another government agency, the small miner is exempt from the requirement of this subsection.

(4) If a small miner who conducts a placer or dredge mining operation fails to reclaim the operation, the small miner is liable to the department for all its reasonable costs of reclamation, including a reasonable charge for services performed by state personnel and for state materials and equipment used. If the small miner posts a surety bond, the surety is liable to the state to the extent of the bond amount and the small miner is liable for the remainder of the reasonable costs to the state of reclaiming the operation.

(5) If a small miner who conducts a placer or dredge mining operation fails to commence reclamation of the operation within 6 months after cessation of mining or within an extended period allowed by the department for good cause shown or if the small miner fails to diligently complete reclamation, the department shall notify the small miner by certified mail that it intends to reclaim the operation unless the small miner commences reclamation within 30 days and diligently completes the reclamation. The notice must be mailed to the address stated on the small miner exclusion statement or, if the small miner has notified

the department of a different address by letter or in the annual certification form, to the most recent address given to the department. If the small miner fails to commence reclamation within 30 days or to diligently complete reclamation, the department may revoke the small miner exclusion statement, forfeit any bond that has been posted with the department, and enter and reclaim the operation. If the small miner has not posted a bond with the department or if the reasonable costs of reclamation exceed the amount of the bond, the department may also collect additional reclamation costs, as set forth in subsection (6), before or after it incurs those costs.

(6) To collect additional reclamation costs, the department shall notify the small miner by certified mail, at the address determined under subsection (5), of the additional reasonable reclamation costs and request payment within 30 days. If the small miner does not pay the additional reclamation costs within 30 days, the department may bring an action in district court for payment of the estimated future costs and, if the department has performed any reclamation, of its reasonable actual costs. The court shall order payment of costs that it determines to be reasonable and shall retain jurisdiction until reclamation of the operation is completed. Upon completion of reclamation, the court shall order payment of any additional costs that it considers reasonable or the refund of any portion of any payment for estimated costs that exceeds the actual reasonable costs incurred by the department.

(7) A small miner who intends to use a cyanide ore-processing reagent *or other metal leaching solvents or reagents* shall obtain an operating permit for that part of the small miner's operation in which the cyanide ore-processing reagent *or other metal leaching solvents or reagents* will be used or disposed of. The acreage disturbed by the *operation using* cyanide *ore-processing reagents or other metal leaching solvents or reagents* ~~ore-processing operation~~ and covered by the operating permit is excluded from the 5-acre limit specified in 82-4-303(15)(a)(i) and (15)(a)(ii).

(8) The exemption provided in this section does not apply to a person:

(a) whose failure to comply with the provisions of this part, the rules adopted under this part, or a permit or license issued under this part has resulted in the forfeiture of a bond, unless that person meets the conditions described under 82-4-360;

(b) who has not paid a penalty for which the department has obtained a judgment pursuant to 82-4-361;

(c) who has failed to post a reclamation bond required by this section, unless the department has certified that the area for which the bond should have been posted has been reclaimed by that person or reclaimed by the department and the person has reimbursed the department for the cost of the reclamation; or

(d) who has failed to comply with an abatement order issued pursuant to 82-4-362, unless the department has completed the abatement and the person has reimbursed the department for the cost of abatement.

(9) The exemption provided in this section does not apply to an area:

(a) under permit pursuant to 82-4-335;

(b) that has been permitted pursuant to 82-4-335 and reclaimed by the permittee, the department, or any other state or federal agency; or

HeinOnline -- 1999 vol. II 2116 1999

(c) that has been reclaimed by or has been subject to remediation of contamination or pollution by a public agency, under supervision of a public agency, or using public funds.

(10) A small miner may not use mercury except in a contained facility that prevents the escape of any mercury into the environment."

Section 3. Section 82-4-310, MCA, is amended to read:

"82-4-310. Exemption — scale and type of activity. (1) ~~This part does not apply to a person engaged in mining activities if that person~~ *A person is exempt from this part when the person is engaging in a mining activity that* does not:

Section 4. Section 82-4-335, MCA, is amended to read:

"82-4-335. Operating permit — limitation — fees. (1) A person may not engage in mining, ore processing, or reprocessing of tailings or waste material, construct or operate a hard-rock mill, use cyanide ore-processing reagents *or other metal leaching solvents or reagents*, or disturb land in anticipation of those activities in the state without first obtaining an operating permit from the department. A separate operating permit is required for each complex.

(2) A small miner who intends to use a cyanide ore-processing reagent *or other metal leaching solvents or reagents* shall obtain an operating permit for that part of the small miner's operation where the cyanide ore-processing reagent *or other metal leaching solvents or reagents* will be used or disposed of.

HeinOnline -- 1999 vol. II 2117 1999

(3) Prior to receiving an operating permit from the department, a person shall pay the basic permit fee of $25. The department may require a person who is applying for a permit pursuant to subsection (1) to pay an additional fee not to exceed the actual amount of contractor and employee expenses beyond the normal operating expenses of the department whenever those expenses are reasonably necessary to provide for timely and adequate review of the application, including any environmental review conducted under Title 75, chapter 1, parts 1 and 2. The board may further define these expenses by rule. Whenever the department determines that an additional fee is necessary and the additional fee will exceed $5,000, the department shall notify the applicant that a fee must be paid and suhmit to the applicant an itemized estimate of the proposed expenses. The department shall provide the applicant an opportunity to review the department's estimated expenses. The applicant may indicate which proposed expenses the applicant considers duplicative or excessive, if any.

(4) The person shall submit an application on a form provided by the department, which must contain the following information and any other pertinent data required by rule:

(f) the names and addresses of the owners of record and any purchasers under contracts for deed of the surface of the land within the permit area and the owners of record and any purchasers under contracts for deed of all surface area within one-half mile of any part of the permit area, provided that the department is not required to verify this information;

(g) the names and addresses of the present owners of record and any purchasers under contracts for deed of all minerals in the land within the permit area, provided that the department is not required to verify this information;

(h) the source of the applicant's legal right to mine the mineral on the land affected hy the permit, provided that the department is not required to verify this information;

(k) ground water and surface water hydrologic data gathered from a sufficient number of sources and length of time to characterize the hydrologic regime;

(l) a plan detailing the design, operation, and monitoring of impounding structures, including but not limited to tailings impoundments and water reservoirs, sufficient to ensure that the structures are safe and stable;

(m) a plan identifying methods to be used to monitor for the accidental discharge of objectionable materials and remedial action plans to be used to control and mitigate discharges to surface or ground water; and

(5) Except as provided in subsection (7), the permit provided for in subsection (1) for a large-scale mineral development as defined in 90-6-302 must be conditioned to provide that activities under the permit may not commence until the impact plan is approved under 90-6-307 and until the permittee has provided a written guarantee to the department and to the hard-rock mining impact board of compliance within the time schedule with the commitment made in the approved impact plan, as provided in 90-6-307. If the permittee does not comply with that commitment within the time scheduled, tbe department, upon receipt of written notice from the hard-rock mining impact board, shall suspeud the pormit until it receives written notice from the hard-rock mining impact board that the permittee is in compliance.

(6) When the department determines that a permittee has become or will become a large-scale mineral developer pursuant to 82-4-339 and 90-6-302 and provides notice as required under 82-4-339, within 6 months of receiving the notice, the permittee shall provide the department with proof that the permittee has obtained a waiver of the impact plan requirement from the hard-rock mining impact board or that the permittee has filed an impact plan with the hard-rock mining impact board and the appropriate county or counties. If the permittee does not file the required proof or if the hard-rock mining impact board certifies to the department that the permittee has failed to comply with the hard-rock mining impact review and implementation requirements in Title 90, chapter 6, parts 3 and 4, the department shall suspend the permit until the pormittee files the required proof or until tbe hard-rock mining impact board certifies that the permittee has complied with the hard-rock mining impact review and implementation requirements.

(7) Compliance with 90-6-307 is not required for exploration and bulk sampling for metallurgical testing when the aggregate samples are less than 10,000 tons.

(8) A person may not be issued an operating permit if:

(a) that person's failure to comply with the provisions of this part, the rules adopted under this part, or a permit or license issued under this part bas resulted in the forfeiture of a bond, unless that person meets the conditions described in 82-4-360;

(b) that person has not paid a penalty for which the department has obtained a judgment pursuant to 82-4-361;

(c) that person has failed to post a reclamation bond required by 82-4-305, unless the department has certified that the area for which the bond should bave been posted has been reclaimed by that person or reclaimed by the department and the person has reimbursed the department for the cost of the reclamation;

HeinOnline -- 1999 vol. II 2119 1999

(d) that person has failed to comply with an abatement order issued pursuant to 82-4-362, unless the department has completed the abatement and the person has reimbursed the department for the cost of abatement.

(9) A person may not be issued a permit under this part unless, at the time of submission of a bond, the person provides the current information required in subsection (4)(a) and:

Section 5. Section 82-4-338, MCA, is amended to read:

"**82-4-338. Performance bond.** (1) The applicant shall file with the department a bond payable to the state of Montana with surety satisfactory to the department in the sum to be determined by the department of not less than $200 ~~or more than $2,500~~ for each acre or fraction of an acre of the disturbed ~~area~~ *land*, conditioned upon the faithful performance of the requirements of this part, the rules of the board, and the permit. In lieu of a bond, the applicant may file with the ~~board~~ *department* a cash deposit, an assignment of a certificate of deposit, or other surety acceptable to the department. ~~Regardless of the limits in this subsection, the~~ *The* bond may not be less than the estimated cost to the state to ensure compliance with this part, the rules, and the permit, *including the potential cost of department management, operation, and maintenance of the site upon temporary or permanent operator insolvency or abandonment, until full bond liquidation can be effected.* A public or governmental agency may not be required to post a bond under the provisions of this part. A blanket performance bond covering two or more operations may be accepted by the ~~board~~ *department*. A blanket bond must adequately secure the estimated total number of acres of disturbed land.

(2) The department shall ~~review~~ *conduct an overview of* the amount of each bond ~~at least every 5 years~~ *annually* and shall *conduct a comprehensive bond review at least every 5 years. The department may conduct additional comprehensive bond reviews if, after modification of the reclamation or operation plan, an annual overview, or an inspection of the permit area, the department determines that an increase of the bond level may be necessary. The department shall* consult with the licensee or permittee if the review indicates that the bond level should be adjusted. When determined by the department that the set bonding level of a permit or license does not represent the present costs of compliance with this part, the rules, and the permit, the department may modify the bonding requirements of that permit or license. The department shall make written findings, give the licensee or permittee a copy of the findings, and, for operating permits, publish notice of the findings in a newspaper of general circulation in the county in which the operation is located. The permittee or any person with an interest that may be adversely affected may obtain a contested

HeinOnline -- 1999 vol. II 2120 1999

case hearing under the provisions of the Montana Administrative Procedure Act on the adjusted bond level by filing with the department within 30 days of the notice a written request for hearing.

(3) A bond filed in accordance with the provisions of this part may not be released by the department until the provisions of this part, the rules adopted pursuant to this part, and the permit have been fulfilled.

(4) A bond filed for an operating permit obtained under 82-4-335 may not be released *or decreased* until the public has been provided an opportunity for a hearing *and a hearing has been held if requested. The department shall provide reasonable statewide and local notice of the opportunity for a hearing, including but not limited to publishing the notice in newspapers of general daily circulation.*

(5) All bonds required in accordance with the provisions of this section must be based upon reasonably foreseeable activities that the applicant may conduct in order to comply with conditions of an operating permit or license. Bonds may be required only for anticipated activities as described in subsection (1). Only those activities that themselves or in conjunction with other activities have a reasonable possibility of occurring may be bonded.

(6) At the applicant's discretion, bonding in addition to that required by this section may be posted. These unobligated bonds may, on the applicant's request, be applied to future bonds required by this section."

Section 6. Section 82-4-341, MCA, is amended to read:

"82-4-341. Compliance — reclamation by ~~board~~ *department*. (1) The department shall cause the permit area to be inspected at least annually to determine whether the permittee has complied with this part, the rules adopted under this part, or the permit.

(2) The permittee shall proceed with reclamation as scheduled in the approved reclamation plan *or as required pursuant to subsection (8)*. Following written notice by the department noting deficiencies, the permittee shall commence action within 30 days to rectify these deficiencies and shall diligently proceed until the deficiencies are corrected. Deficiencies that also violate other laws that require earlier rectification must be corrected in accordance with the applicable time provisions of those laws. The department may extend performance periods referred to in this section and in 82-4-336 for delays clearly beyond the permittee's control, but only when the permittee is, in the opinion of the department, making every reasonable effort to comply.

(3) Within 30 days after notification by the permittee and when, in the judgment of the department, reclamation of a unit of disturbed land area is properly completed, *the department shall provide the public notice and conduct any hearing requested pursuant to 82-4-338. As soon as practicable thereafter,* the permittee must be notified in writing and the bond on the area must be released or decreased proportionately to the acreage included within the bond coverage.

(4) The ~~board~~ *department* shall cause the bond to be forfeited if:

(a) reclamation of disturbed land is not pursued in accordance with the reclamation plan and the permittee has not commenced action to rectify deficiencies within 30 days after notification by the department;

(b) reclamation is not properly completed in conformance with the reclamation plan within 2 years after completion or abandonment of operation

on any fraction of the permit area or within a longer period that may have been authorized under this part; or

(c) after default hy the permittee, the surety either refuses or fails to perform the work to the satisfaction of the department within the time required.

(5) The department shall notify the permittee and the surety hy order. If the bond is not paid within 30 days after receipt of the notice, the attorney general, upon request of the department, shall bring an action on behalf of the state in district court.

(6) The department may, with the staff, equipment, and material under its control or by contract with others, take any necessary actions for required reclamation of the disturbed lands. Except in an environmental emergency, work provided for in this section must be let on the basis of competitive hidding. The department shall keep a record of all necessary expenses incurred in carrying out the work or activity authorized under this section, including a reasonable charge for the services performed by the state's personnel and the state's equipment and materials used. The surety is liable to the state to the extent of the bond. The permittee is liable for the remainder of the cost. Upon completion of the reclamation, the department shall return any amount not expended.

(7) In addition to the other liabilities imposed hy this part, failure to commence an action to remedy specific deficiencies in reclamation within 30 days after notification by the department or failure to satisfactorily complete reclamation work on any segment of the permit area within 2 years or within a longer period that the department may permit on the permittee's application or on the department's own motion, after completion or abandonment of operations on any segment of the permit area, constitutes sufficient grounds for cancellation of a permit or license and refusal to issue another permit or license to the applicant. A cancellation action may not be effected while an appeal is pending from any ruling requiring the cancellation of a permit or license.

(8) (a) If at the time of bond review pursuant to 82-4-338 no mineral extraction or ore processing has occurred on a mine permit area for the past 5 years, the department shall determine whether further suspension of the operation will create conditions that will cause violations of Title 75, chapter 2 or 5, or significantly impair reclamation of disturbed areas. If the department determines in writing that violations of Title 75, chapter 2 or 5, or significant impairment of reclamation will occur, the department shall notify the permittee that the permittee shall, within a reasonable time specified in the notice, abate the conditions or commence reclamation. The department may grant reasonable extensions of time for good cause shown. If the permittee does not abate the conditions or commence reclamation within the time specified in the notice and any extensions, the department shall order either that the condition be abated or that reclamation be commenced.

(b) The permittee may request a hearing on the order by submitting a written request for hearing within 30 days of receipt of the order. A request for hearing stays the order pending a final decision, unless the department determines in writing that the stay will create an imminent threat of significant environmental harm or will significantly impair reclamation."

not to exceed the costs of restoration required by this part as determined by the department. The amount of the bond may not be less than $200 or more than $1,000 ~~per~~ *an* acre unless the department determines, in writing, that the cost of restoration of the land exceeds $1,000 ~~per~~ *an* acre. Upon ~~such a~~ *the cost* determination, the bond amount must be set by the department at the cost of restoring the land.

(2) In lieu of the bond, the operator may deposit with the ~~board~~ *department* cash, government securities, a letter of credit in a form acceptable to the department, or a bond with property sureties in an amount equal to that of the required bond on conditions as ~~above~~ prescribed *in this part*. In the discretion of the ~~board~~ *department*, surety bond requirements may be fulfilled by the operator's posting a bond with land and improvements and facilities ~~thereon~~ *located on the land* as security, in which event ~~no~~ *a* surety may *not* be required *but the department may require that the amount of the bond be adjusted to reimburse the department for foreclosure costs*. The penalty of the bond or amount of cash and securities ~~shall~~ *must* be increased or reduced from time to time as provided in this part. The bond or security remains in effect until the affected land has been reclaimed as provided under the ~~contract~~ *permit* and the reclamation has been approved and the bond or security has been released by the ~~board~~ *department*. The bond or security ~~shall~~ *may* cover only actual affected land and may be increased or reduced to cover only ~~such~~ *those* acreages as remain unreclaimed.

Upon failure of the operator to make substitution of surety, the ~~board~~ *department* may suspend the ~~contract~~ *permit* of the operator to conduct operations upon the land described in the ~~contract~~ *permit* until the substitution has been made.

(4) The department shall cause the reclamation of any affected land with respect to which a bond has been forfeited.

(5) Whenever an operator has completed all of the requirements under the provisions of this part as to any affected land, the operator shall notify the department ~~thereof~~ *of the completed requirements*. If the board releases the operator from further obligation regarding ~~such~~ *any* affected land, the penalty of the bond ~~shall~~ *must* be reduced proportionately."

(1) ~~The operator shall submit a reclamation plan to the department before commencing any opencut mining and may not commence mining before the plan receives approval from the department. The operator may request and receive a meeting with the department prior to submission of the plan. If the department does not notify the operator that it has approved or disapproved a plan within 30 days after the department has received the plan, the department is considered to have approved the plan. The department, however, for sufficient cause, may extend its period of consideration for an additional 30 days if it notifies the~~

~~operator prior to the end of the original 30-day period.~~ The department shall submit each reclamation plan or amendments to the reclamation plan to the landowner for recommendations and shall consider those recommendations in deciding whether to approve or disapprove any plan or amendments. The department may seek technical help from any state or federal agency. The ~~board~~ *department* shall submit the plan immediately to the ~~director of the university of Montana-Missoula-statewide archaeological survey~~ *state historic preservation office* for evaluation of possible archaeological or historical values in the area to be mined. The department may approve a reclamation plan only if the department has found that the plan provides for the best possible reclamation ~~procedures available~~ under the circumstances at the time, so that after mining operations are completed, the affected land will be reclaimed to a productive use. Once the reclamation plan is accepted in writing by the department, it must become a part of the ~~contract~~ *permit* but is subject to annual review and modification by the department.

(2) The department may not approve ~~any~~ *a* reclamation plan *or a plan of operations* unless the ~~plan provides~~ *plans provide*:

(b) that to the extent reasonable and practicable, the operator will establish vegetative cover commensurate with the proposed land use;

(c) whenever operations result in a need to prevent acid drainage or sedimentation on or in adjoining lands or streams, for the construction of earth dams or other reasonable devices to control water drainage, provided the formation of the impoundments or devices will not interfere with other landowners' rights or contribute to water pollution;

(d) that to accomplish practical utilization of soil materials, the material will be *salvaged and* utilized for placement on affected areas, if required by the reclamation plan after completion or termination of that particular phase of the mining operations, at a depth sufficient for plant growth on slopes of 3:1 or less~~;~~. *The depth of soil materials to be placed on the reclaimed area must be specified in the plan.*

(e) that grading will be commensurate with the topography sought and land use designated;

(f) that metal and other waste will be removed or buried;

(g) that all access, haul, and other support roads will be located, constructed, and maintained in such a manner as to control and minimize channeling and other erosion;

(h) that the operator will submit a progress report annually to the department;

(i) that all operations will be conducted to avoid range and forest fires and spontaneous combustion and that open burning of carbonaceous materials will be in accordance with suitable practices for fire prevention and control;

(j) that archaeological and historical values in areas to be mined will be given appropriate protection;

HeinOnline -- 1999 vol. II 2129 1999

(k) that except for ~~rock faces, bench faces, and excavations used for water impoundments~~ *those postmine land uses that do not require vegetation*, each surface area of the mined premises that will he disturbed will he revegetated when its use for extractive purposes is no longer required;

(l) that seeding and planting will be done in a manner to achieve a permanent ~~suitable~~ vegetative cover ~~for wildlife, livestock,~~ *that is suitable for the postmine land use* and ~~retardation of~~ *that retards* erosion and that all seed will be drilled unless otherwise provided in the plan;

(m) that reclamation will be as concurrent with mining operations as feasihle and will be completed within a specified length of time; ~~and~~

(n) that surface water and ground water will be given appropriate protection, consistent with state law, from deterioration of water quality and quantity that may arise as a result of the operation;

(o) that noise and visual impacts on residential areas will be minimized to the degree practicable through berms, vegetation screens, and reasonable limits on hours of operation; and

(p) that any additional procedures that are necessary, consistent with the purposes of this part, to prevent significant physical harm to the affected land or adjacent land, structures, improvements, or life forms will be implemented.

(3) If reclamation according to the plan has not been completed in the time specified, the department after 30 days' written notice shall order the operator to cease mining and, if the operator does not cease, ~~shall~~ *may issue an order to reclaim[, a notice of violation, or an order of abatement] or may* institute an action to enjoin further operation and may sue for damages for breach of ~~contract~~ *the conditions of the permit*, for payment of tbe performance bond, or for both.

(4) (a) At any time during the ~~period of reclamation~~ *term of the permit*, the operator may for good reason submit to tbe department a new reclamation plan or amendments to the existing plan, including extensions of time.

(b) The department may approve the proposed new reclamation plan or amendments to tbe existing plan if:

(i) tbe operator has in geod faith carried on reclamation according to the existing plan and the proposed new plan or amendments to the existing plan will result in reclamation as or more desirable than the reclamation proposed under the existing plan; or

(ii) it is higbly improbable reclamation will be successful unless the existing plan is replaced or amended.

(c) When accepted, the proposed new reclamation plan or the proposed amendments to the existing plan become a part of the ~~contract~~ *permit*.

(5) The operator shall provide a performance bond or an alternative acceptable to the department in an amount commensurate with the estimated cost of reclamation, but in no case may the bond be less than $200 ~~per~~ *an* acre. The estimated cost of reclamation must be set forth in the reclamation plan.

(6) The ~~contract~~ *permit*, reclamation plan, and amendments accepted by the department are a public record and are open to inspection.

After the hearing or after the time for requesting a hearing has expired, the department shall make findings of fact, issue a written decision as to the occurrence of the violation and the amount of penalty warranted, and order the payment of a penalty in that amount. The person or operator shall remit the amount of the penalty within 30 days of the order. If the person or operator wishes to obtain judicial review of the assessment, the person or operator shall submit with the penalty a statement that the penalty is being paid under protest and the department shall hold the payment in escrow until judicial review is complete. A person or operator who fails to request and submit testimony at the hearing provided for in this subsection or who fails to pay the assessed penalty under protest within 30 days of the order assessing the penalty forfeits the right to seek judicial review of the violation or penalty determinations. The association may also, subject to the approval of the commissioner, provide for interim assessments against the association members as may be necessary to ensure the financial capability of the association in meeting the incurred or estimated claims expenses of the association plan and the association portability plan and operating and administrative expenses of the association until the association's next annual fiscal yearend assessment. Direct and indirect expenses include a prorated reimbursement for the pertion of the lead carrier's administrative, printing, claims admmistration, management, and building overhead expenses, which are assignable to the maintenance and administration of the association plan. (7) "Horizontal drain hole" means that portion of a well bore with 70 degrees to 110 degrees deviation from the vertical and a horizontal projection within the common source of supply, as that terın is defined by the board, that exceeds 100 feet.

(8) "Horizontally completed well" means:

(a) a well with one or more horizontal drain holes; and

(b) any other well classified by the board as a horizontally completed well.

(9) "Incremental production" means:

(a) the volume of oil produced by a new enhanced recovery project, by a well in primary recovery recompleted as a horizontally completed well, or by an expanded enhanced recovery project, which volume of production is in excess of the production decline rate establisbed under the conditions existing before:

(i) the commencement of the recompletion of a well as a horizontally completed well;

(ii) expansion of the existing enhanced recovery project; or

(iii) commencing a new enhanced recovery project; or

(10) "Natural gas" or "gas" means natural gas and other fluid hydrocarbons, other than oil, produced at the wellhead.

(11) "New enhanced recovery project" means an enhanced recovery project that began development after December 31, 1993, and before January 1, 2002.

HeinOnline -- 1999 vol. II 2255 1999

(12) "Nonworking interest owner" means any interest owner who does not share in the exploration, development, and operation costs of the lease or unit, except for production taxes.

(13) "Oil" means crude petroleum or mineral oil and other hydrocarbons, regardless of gravity, that are produced at the wellhead in liquid form and that are not the result of condensation of gas after it leaves the wellhead.

(14) "Operator" or "producer" means a person who produces oil or natural gas within this state or who owns, controls, manages, leases, or operates within this state any well or wells from which any marketable oil or natural gas is extracted or produced.

(15) "Post-1985 well" means an oil or natural gas well drilled after June 30, 1985, other than horizontally completed or recompleted oil wells drilled after December 31, 1993, that produces oil or natural gas or a well that has not produced oil or natural gas during the 5 years immediately preceding the first month of qualifying as a post-1985 well.

(16) "Pre-1985 well" means an oil or natural gas well that was drilled before July 1, 1985.

(17) "Primary recovery" means the displacement of oil from the earth into the well bore by means of the natural pressure of the oil reservoir and includes artificial lift.

(18) "Production decline rate" means the projected rate of future oil production, extrapolated by a method approved by the board, that must be determined for a project area prior to commencing a new or expanded enhanced recovery project or the recompletion of a well as a horizontally completed well. The approved production decline rate must be certified in writing to the department by the board. In that certification, the board shall identify the project area and shall specify the projected rate of future oil production by calendar year and by calendar quarter within each year. The certified rate of future oil production must be used to determine the volume of incremental production that qualifies for the tax rate imposed under 15-36-304(4)(d).

(19) "Qualifying production" means the first 24 months of production of oil or natural gas from any post-1985 well drilled after March 31, 1995, or from a well that has not produced oil or natural gas during the 5 years immediately preceding the first month of qualifying production. Qualifying production does not include oil production from a horizontally recompleted well.

(20) "Secondary recovery project" means an enhanced recovery project, other than a tertiary recovery project, that commenced or was expanded after December 31, 1993, and before January 1, 2002, and meets each of the following requirements:

HeinOnline -- 1999 vol. II 2256 1999

that may potentially be recovered. For purposes of this part, secondary recovery methods include but are not limited to:

(i) the injection of water into the producing formation for the purposes of maintaining pressure in that formation or for the purpose of increasing the flow of oil from the producing formation to a producing well bore; or

~~(21) "Stripper exemption" means the first 3 barrels a day for petroleum and other mineral or crude oil produced by a stripper well if the average price per barrel of oil as reported in the Wall Street Journal for west Texas intermediate crude oil during a calendar quarter is less than $30 a barrel. If the price of oil is equal to or greater than $30 a barrel in a calendar quarter, there is no stripper exemption in that quarter. The average price per barrel is computed by dividing the sum of the daily price for west Texas intermediate crude oil as reported in the Wall Street Journal for the calendar quarter by the number of days on which the price was reported in the quarter.~~

~~(22)~~*(21)* "Stripper natural gas" means the natural gas produced from any well that produces less than 60,000 cubic feet of natural gas a day during the calendar year immediately preceding the current year. Production must be determined by dividing the amount of production from a lease or unitized area for the year immediately preceding the current calendar year by the number of producing wells in the lease or unitized area and by dividing the resulting quotient by 365.

~~(22)~~*(22)* "Stripper oil" means the oil produced from any well that produces less than ~~10~~ *15* barrels a day for the calendar year immediately preceding the current year *if the average price for a barrel of oil as reported in the Wall Street Journal for west Texas intermediate crude oil during a calendar quarter is less than $30 a barrel. If the price of oil is equal to or greater than $30 a barrel in a calendar quarter, there is no stripper tax rate[, including stripper well exemption tax rate,] in that quarter. The average price for a barrel is computed by dividing the sum of the daily price for west Texas intermediate crude oil as reported in the Wall Street Journal for the calendar quarter by the number of days on which the price was reported in the quarter.* Production must be determined by dividing the amount of production from a lease or unitized area for the year immediately preceding the current calendar year by the number of producing wells in the lease or unitized area and by dividing the resulting quotient by 365.

~~(24)~~*(23)* "Tertiary recovery project" means an enhanced recovery project, other than a secondary recovery project, using a tertiary recovery method that meets the following requirements:

(b) The property to be affected by the project must be adequately delineated in the certification according to the specifications required by the board.

(c) The project must involve the application of one or more tertiary recovery methods that can reasonably be expected to result in an increase, determined by the board to be significant in light of all the facts and circumstances, in the amount of crude oil that may potentially be recovered. For purposes of this part, tertiary recovery methods include but are not limited to:

(2) The youth, upon advice of an attorney, may waive the right to a hearing.

(3) With regard to this hearing, the youth must be given:

The department shall notify all district courts, sheriffs, and youth courts of the capacity for each state youth correctional facility by sending a report to each annually.

(2) If the population of a state youth correctional facility exceeds the capacity established by the department, the director of the department may declare that the capacity has been exceeded and temporarily stop admissions to the facility. The director shall notify each district court, sheriff, and youth court that delinquent or criminally convicted youth will not be accepted by the department for admission into the facility until the population is reduced to less than the capacity determined by the department in subsection (1).

(3) If the director of the department declares that the capacity has been exceeded, the department shall place delinquent youth committed to a state youth correctional facility or criminally convicted youth in alternate placements based on the needs of the delinquent youth or criminally convicted youth. (4) The sentencing court, after considering the criminal, social, psychological, and any other records of the youth; any evidence presented at the hearing; and any statements by the victim and by the parent or parents or guardian of the youth and any other advocates for the youth shall determine whether the criminally convicted youth has been substantially rehabilitated based upon a preponderance of the evidence.

(5) In the event that the sentencing court determines that the youth has been substantially rehabilitated, the court shall determine whether to:

~~proposed expansion of net client hunting use under the existing operations plan if it finds that the proposal will cause an undue conflict with existing hunting use of the area~~. (e) rules establishing outfitter reporting requirements. The reports must be filed annually and report actual leased acreage actively used by clients during that year and actual leased acres unused by clients during that year, plus any other information designated by the board and developed in collaboration with the department of fish, wildlife, and parks or the review committee established in 87-1-269 that is considered necessary to evaluate the effectiveness of the hunter management and hunting access management programs.

A nonresident hunting outfitter is subject to the same rules and regulations that apply to a resident hunting outfitter.*

(4) The license fees must be depesited in the state special revenue fund and must be used by the board to investigate the applicant, to enforce this part, and for administrative costs, subject to 37-1-101(6)."

Section 5. Request for net client hunter use expansion — operation — transfer of NCHU upon transfer of operations plan. (1) An outfitter who wishes to expand NCHU shall present an expansion request to the board. A newly licensed outfitter shall establish NCHU in the same manner as a licensed outfittor who requests an NCHU expansion unless the newly licensed outfitter is purchasing the business of an existing outfitter. The board shall evaluate the request based on the criteria provided in [section 6].

(2) For any expansion of NCHU approved by the board after March 1, 1996, the outfitter has 3 years from the date of the expansion approval to establish the new NCHU. Upon expiration of the third year, the outfitter's client base must be adjusted to reflect the highest number of clients actually served, up to but not exceeding the number of clients authorized by the NCHU expansion request.

HeinOnline -- 1999 vol. III 2322 1999

(3) An outfitter may exceed the NCHU in any given year by the following percentages without formally requesting an NCHU expansion:

(a) 10% for an outfitter with 1 to 50 clients;

(b) 8% for an outfitter with 51 to 100 clients; and

(c) 2% for an outfitter with 101 to 300 clients.

(4) When an expansion of NCHU is approved, the outfitter who is granted the expansion shall operate within the limits of the NCHU. The flexibility to exceed NCHU in any given year, as outlined in subsection (3), does not apply to an outfitter who has been previously granted an NCHU expansion.

(5) The NCHU of an existing outfitting business transfers with the operations plan for that business unless the business has not been in operation for at least 3 years. Upon the expiration of 3 years, the client base must be adjusted to reflect the highest number of clients served in any category during the preceding 3 years, not to exceed the total authorized by the NCHU.

Section 6. Criteria for board evaluation of NCHU expansion request — public comments. (1) The criteria listed in subsection (2) must be applied by the board in evaluating and deciding whether to grant an NCHU expansion request. The criteria must be considered in light of the cumulative effect of the current expansion request and any previously approved expansion requests. The board may not approve an expansion request unless, by a preponderance of the evidence, a reasonable person would conclude that the criteria support an expansion request.

(2) An NCHU expansion request may not be granted if any of the following criteria are established:

(a) The request creates closure of a public right-of-way.

(b) The requestor has current license restrictions imposed by the board or is currently subject to a disciplinary action imposed by the board.

(c) The requestor has been convicted or pleaded guilty to a violation of Montana hunting or fishing statutes, rules, or regulations in the last 3 years.

(d) Any information in the request is inaccurate or untrue.

(e) The request does not cover adequate land to ensure the personal safety of hunters.

(f) Sufficient wildlife is not available to support the proposed number of hunters covered under the request.

(g) The proposed expansion would create or exacerbate a game damage situation.

(h) The proposed expansion would restrict the current efforts of the department of fish, wildlife, and parks to manage area wildlife through permits issued to public hunters.

(3) Failure by a requestor to provide all pertinent information and documentation will result in the expansion request being deferred without action until the subsequent meeting of the board. If the requestor fails to provide the pertinent information and documentation before the subsequent board meeting, the request must be denied.

(4) Public comments concerning an NCHU expansion must be solicited and compiled by the department of fish, wildlife, and parks from affected recreation-

HeinOnline -- 1999 vol. III 2323 1999

ists and recreationist organizations, public land management agencies, affected landowners and landowner organizations, affected outfitters and outfitter organizations, and the general public. Public comment must he solicited through the issuance of press releases and by identification of proposed leased private land by its popular description. The department of fish, wildlife, and parks shall incorporate the public comments into the analysis of the expansion request required under subsection (5). In addition, the board shall consider the puhlic comments separately from the department of fish, wildlife, and parks' analysis.

(5) In considering an NCHU expansion request, the board sball also consider any analysis and comments submitted by the department of fish, wildlife, and parks. Departmental analysis may include hut is not limited to the following criteria:

(a) whether historic hunting data, such as the past occurrence of outfitting or public hunting, supports the request;

(b) whether negative impacts to the wildlife population will occur, given documented wildlife trends in the geographical region encompassed by the expansion request;

(c) whether public access or public hunting trends in the geographic region affected by the request will be negatively impacted;

(d) whether there have been past substantiated conflicts between the hunting public and outfitters or between individual outfitters and their clients in the local geographic region affected by the request;

(e) if the expansion will create a negative effect on wildlife habitat;

(f) if the expansion will have negative implications on hunting on public land, hunting access, or outfitting;

(g) whether analysis of existing data regarding wildlife, hunting access, or other relevant information supports the expansion request; and

(h) whether there will be impacts on previously available hunting access in the local geographic region affected hy tbe request, such as impact on the block management program.

(6) The outfitter making the expansion request shall address the criteria outlined in suhsection (5) to the best of the outfitter's knowledge. The analysis required in subsection (5) must be compiled using information supplied by the applicant, through public comment, and through any other available data.

(7) In making its final decision regarding an expansion request, the board shall respond in tbe decision notice to comments received by outlining tbe comment and delineating how, if at all, the comment was incorporated into tbe final decision. The board shall also consider whether:

(a) the expansion will open private or puhlic lands to public hunting that did not previously exist;

(b) the request addresses existing game damage by opening new puhlic equivalent hunting opportunities for both outfitters and the public; and

(c) the expansion would directly restrict puhlic access to public lands.

(8) For the purposes of this section, "right-of-way" means dedicated roads, such as county roads or forest service roads, or rights-of-way with historical use that have been established as legal public rights-of-way.

HeinOnline -- 1999 vol. III 2324 1999

Section 7. Fees in addition to annual license fee — allocation. (1) In addition to the fees required in 37-47-306 for an outfitter providing hunting services, the following fees apply:

(a) An outfitter shall pay an annual fee of $2 for each client served.

(b) An outfitter who is granted a net client hunter use expansion shall pay a fee of $500 for each new client added to that outfitter's operations plan.

(c) An outfitter who operates hunting camps in more than one department of fish, wildlife, and parks administrative region shall pay an annual fee of $5,000 for each camp that is located beyond a 100-mile radius of the outfitter's base of operations and that is in an administrative region other than the region containing the outfitter's base of operations. A fee is not required for the following:

(i) an outfitter's base of operations camp;

(ii) camps established before January 1, 1999;

(iii) camps established on public land when use is directly regulated by public land-use policies; or

(iv) camps on corporate timberlands where public access is not restricted.

(d) An outfitter who desires a net client hunter use expansion shall pay a nonrefundable fee of $2,000 for each expansion request.

(2) Fees collected pursuant to this section must be expended by the board, pursuant to the authority in 37-47-306, and by the department of fish, wildlife, and parks, pursuant to the authority in 87-1-601, and used to fund administrative costs related to implementation of this chapter. The fees collected must be allocated as follows:

(a) Revenue generated by the $2 fee imposed in subsection (1)(a) must be split equally between the board and the department of fish, wildlife, and parks.

(b) Revenue generated by the $500 fee imposed in subsection (1)(b) must be allocated between the board and the department of fish, wildlife, and parks in the following order:

(i) the amount necessary to cover the department's administrative expenses that exceed the revenue generated by subsection (2)(a); and

(ii) the remaining amount to be deposited in the state special revenue fund to the credit of the board.

(c) Revenue generated by the $5,000 fee imposed in subsection (1)(c) must be deposited in the state special revenue fund to the credit of the board.

(d) Revenue generated by the $2,000 fee imposed in subsection (1)(d) must be split equally between the board and the department of fish, wildlife, and parks.

Section 8. Codification instruction. [Sections 5 through 7] are intended to be codified as an integral part of Title 37, chapter 47, and the provisions of Title 37, chapter 47, apply to [sections 5 through 7].

Section 9. Effective dates. (1) [Section 1] is effective October 1, 1999.

(1) In a proceeding for dissolution of marriage, legal separation, maintenance, or child support, the court shall order either or both parents owing a duty of support to a child to pay an amount reasonable or necessary for the child's support, without regard to marital misconduct.

HeinOnline -- 1999 vol. III 2336 1999

(2) The court shall consider all relevant factors, including:

(a) the financial resources of the child;

(b) the financial resources of the parents;

(c) the standard of living that the child would have enjoyed bad the marriage not been dissolved;

(d) the physical and emotional condition of the child and the child's educational and medical needs;

(e) the age of the child;

(f) the cost of day care for the child;

(g) any parenting plan that is ordered or decided upon; and

(h) the needs of any porson, other than the child, whom either parent is legally obligated to support.

(3) (a) Whenever a court issues or modifies an order concerning child support, the court shall determine the child support obligation by applying the standards in tbis section and the uniform child support guidelines adepted by the department of public health and human services pursuant to 40-5-209. The guidelines must be used in all cases, including cases in which the order is entered upon the default of a party and those in which the parties have entered into an agreement regarding the support amount. A verified representation of the defaulting parent's income, based on the best information available, may be used when a parent fails to provide financial information for use in applying tbe guidelines. The amount determined under tlie guidelines is presumed to be an adequate and reasonable support award, unless the court finds by clear and convincing evidence tliat the application of tlie standards and guidelines is unjust to tbe child or to any of the parties or that it is inappropriate in that particular case.

(b) If the court finds that the guideline amount is unjust or inappropriate in a particular case, it shall state its reasons for that finding. Similar reasons must also be stated in a case in which the parties bave agreed to a support amount that varies from the guideline amount. Findinga that rebut and vary the guideline amount inust include a statement of the amount of support that would have ordinarily been ordered under the guidelines.

(c) If the court does not order a parent owing a duty of support to a child to pay any amount for the child's support, the court shall state its reasons for not ordering child support.

(d) Child support obligations established under this section are subject to the registration and processing provisions of chapter 5, part 9.

(4) Each temporary or final district court judgment, decree, or order establishing a child support obligation under this title and each modification of a final order for child support must include a medical support order as provided for in Title 40, chapter 5, part 8.

(5) (a) Unless the court makes a written exception under 40-5-315 or 40-5-411 and the exception is included in the support order, a support obligation established by judgment, decree, or order under this section, whether temporary or final, and each modification of an existing support obligation under 40-4-208 inust be enforced by immediate or delinquency income withholding, or both, under Title 40, chapter 5, part 3 or 4. When an order is annualized and withheld on a weekly or biweekly basis under this section, the support withheld from the obliger may be retained by the obligee when it exceeds the obliger's monthly support obligation if the excess support is a result of annualized withholding.

(d) If an obliger is exempted from paying support through income withholding, the support order must include a requirement that whenever the case is receiving services under Title IV-D of the Social Security Act, support payments must be paid through the department of public health and human services as provided in 40-5-909.

(b) The court shall keep the information provided under subsection (6)(a) confidential except that the information may be provided to the department of public health and human services for use in administering Title IV-D of the Social Security Act.

(c) The order must also require that in any subsequent child suppert enforcement action, upon sufficient showing that diligent effort has been made to ascertain the location of the party, the district court or the department of public health and human services, if the department is providing services under Title IV-D of the Social Security Act, may consider due process requirements for notice and service of process met with respect to the party upon delivery of written notice by regular mail to the most recent address of the party or the party's employer's address reported to the court.

(i) The district shall first allocate the oil and natural gas production taxes to the budgeted funds of the district in the same proportion that all other property tax proceeds were distributed in the district in fiscal year 1990.

(ii) If the allocation under subsection ~~(11)(d)(i)~~ *(12)(d)(i)* exceeds the total budget for a fund, the trustees may allocate the excess to any budgeted fund of the school district.

(e) For all production from post-1985 wells, *post-1999 wells,* and horizontally drilled wells completed after December 31, 1993, the county treasurer shall distribute oil and natural gas production taxes received under subsections (2)(b), (3)(b)(ii), (4)(b)(ii), (5)(b), (6)(b), and (7)(~~b~~)(ii) between county and school taxing units in the relative proportions required by the levies for state, county, and school district purposes in the same manner as property taxes were distributed in the preceding fiscal year.

(f) The allocation to the county in subsection ~~(11)(c)~~ *(12)(e)* must be distributed by the county treasurer in the relative proportions required by the levies for county taxing units and in the same manner as property taxes were distributed in the preceding fiscal year.

(g) The money distributed in subsection ~~(11)(c)~~ *(12)(e)* that is required for the county mill levies for school district retirement obligations and transportation schedules must be deposited to the funds established for these purposes.

[HB 174]

AN ACT GENERALLY REVISING THE TAXATION OF ELECTRICAL GENERATION FACILITIES TO COMPORT WITH THE EMERGING COMPETITIVE MARKETS IN THE SUPPLY OF ELECTRICITY; CREATING CLASS THIRTEEN PROPERTY TO INCLUDE ELECTRICAL GENERATION FACILITIES; PROVIDING A DEFINITION OF "ELECTRICAL GENERATION FACILITIES"; PROVIDING AN EXCEPTION FOR QUALIFYING SMALL POWER PRODUCTION FACILITIES; TAXING ALL ELECTRICAL GENERATION FACILITIES THAT WERE PREVIOUSLY TAXED UNDER CLASS NINE AS CLASS THIRTEEN PROPERTY; TAXING CLASS THIRTEEN PROPERTY AT 6 PERCENT OF ITS MARKET VALUE; IMPOSING A 0.015 CENT PER KILOWATT-HOUR WHOLESALE ENERGY TRANSACTION TAX ON THE TRANSMISSION OF ELECTRICITY IN THE STATE; PROVIDING EXEMPTIONS FROM THE WHOLESALE ENERGY TRANSACTION TAX; ALLOWING THE ELECTRIC ENERGY PRODUCERS' LICENSE TAX TO BE ITEMIZED ON A CUSTOMER'S BILL; PROVIDING FOR THE DISTRIBUTION OF WHOLESALE ENERGY TRANSACTION TAX REVENUE TO TAXING JURISDICTIONS; PROVIDING A STATUTORY APPROPRIATION FOR THE DISTRIBUTION OF TAX REVENUE TO TAXING JURISDICTIONS; REVISING THE CLASSIFICATION OF COUNTIES; REVISING THE DEBT LIMITS OF TAXING JURISDICTIONS; AMENDING SECTIONS 7-1-2111, 7-7-107, 7-7-2101, 7-7-2203, 7-7-4201, 7-7-4202, 7-14-2524, 7-14-2525, 7-16-2327, 7-16-4104, 15-6-141, 15-51-102, 17-7-502, 20-9-406, AND 69-8-211, MCA; AND PROVIDING EFFECTIVE DATES, APPLICABILITY DATES, AND A TERMINATION DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Short title. [Sections 1 through 14] may be cited as the "Electrical Generation Tax Reform Act".

Section 2. Legislative findings and declaration of purpose. (1) The legislature finds that the restructuring of the electric utility industry in Montana implemented by Chapter 505, Laws of 1997, including the unbundling of services and the provision that allows Montana customers to choose their supplier of

HeinOnline -- 1999 vol. III 2398 1999

electricity and related services in a competitive market, renders the existing methed of property taxation of the electric utility industry an impediment to competition.

(2) The legislature further finds that the restructuring of the electric utility industry necessitates changes to the existing system of property taxation that include reducing the tax rate applied to electrical generation facilities and imposing a replacement tax in order to:

(a) avoid placing a supplier engaged in the business of generating, supplying, or selling electricity at a competitive advantage or disadvantage;

(b) preserve the revenue base of the existing property tax system for taxing jurisdictions in the state;

(c) minimize the shift in tax burden and the imposition of a higher tax burden on consumers of electricity; and

(d) minimize additional administrative costs and the burden of compliance.

(3) The legislature further finds that a reduction in the property tax rates applied to electrical generation facilities must be replaced by a wholesale energy transmission tax imposed on each kilowatt hour of electricity transmitted in the state.

(4) The legislature further finds that existing property tax rates applied to electrical transmission and distribution systems are appropriate for a regulated function.

(5) The legislature therefore declares that there is a compelling public need to modify the existing system of property taxation of electrical generation facilities and to impose a wholesale energy transaction tax on kilowatt hours of electricity transmitted in the state to ensure competitive neutrality and to provide replacement revenue te taxing jurisdictions in the state.

Seetion 3. Definitions. As used in [sections 1 through 14], unless the context requires otherwise, the following definitions apply:

(1) "Customer" or "purchaser" means a person who acquires for consideration electricity for use or consumption and not for resale.

(2) "Distribution services provider" means a person controlling or operating distribution facilities for distribution of electricity to the public. A distribution services provider includes a purchaser who takes electricity directly from a transmission line and a purchaser who generates electricity for the purchaser's own use but does not include electricity generated by the purchaser for noncommercial use or for agricultural use.

(3) "Person" means an individual, estate, trust, receiver, cooperative association, corporation, limited liability company, firm, partnership, joint venture, syndicate, or other entity, including any gas or electric utility owned or operated by a county, municipality, or other pelitical subdivision of the state.

HeinOnline -- 1999 vol. III 2399 1999

per kilowatt hour of electricity transmitted by a transmission services provider in the state.

(b) For electricity produced in the state for delivery outside of the state, the taxpayer is the person owning or operating the electrical generation facility producing the electricity. The transmission services provider shall collect the tax from the person based upon the kilowatt hours introduced onto transmission lines from the electrical generation facility. The amount of kilowatt hours subject to tax must be reduced by 5% to compensate for transmission line losses.

(c) For electricity produced in the state for delivery within the state, the taxpayer is the distribution services provider. The transmission services provider shall collect the tax based upon the amount of kilowatt hours of electricity delivered to the distribution services provider. The taxpayer may apply for a refund for overpayment of taxes pursuant to [section 13].

(d) For electricity produced outside the state for delivery inside the state, the taxpayer is the distribution services provider. The transmission services provider shall collect the tax based upon the amount of kilowatt hours of electricity delivered to the distribution services provider.

(e) For electricity delivered to a distribution services provider that is a rural electric cooperative for delivery te purchasers that have opted for customer choice under the provisions of Title 69, chapter 8, part 3, the taxpayer is the distribution services provider. The transmission services provider shall collect the tax based on the amount of kilowatt hours of electricity delivered to the distribution services provider that is attributable to customers that have opted for customer choice.

(f) For electricity delivered to a distribution services provider that prior to May 2, 1999, was owned by a public utility as defined in 69-3-101, the tax is imposed on the successor distribution services provider. The transmission services provider shall collect the tax based upon the amount of kilowatt hours of electricity delivered to the distrihution services provider.

(2) (a) If more than one transmission services provider transmits electricity, the last transmission services provider transmitting or delivering the electricity shall collect the tax.

(h) If the transmission services provider is an agency of the United States government, the distribution services provider receiving the electricity shall self-assess the tax subject to the provisions of [sections 1 through 14].

(c) If an electrical generation facility located within the state produces electricity for sale inside and outside the state, sales within the state are considered to have come from electricity produced within the state for purposes of the tax imposed by this section.

(3) (a) Electricity transmitted through the state that is not produced or delivered in the state is exempt from the tax imposed by this section.

(b) Electricity produced in the state hy an agency of the of the United States government for delivery outside of the state is exempt from the tax imposed hy this section.

(c) Electricity delivered to a distribution services provider that is a municipal utility described in 69-8-103(5)(b) or a rural electric cooperative organized under the provisions of Title 35, chapter 18, is exempt from the tax imposed hy this section.

HeinOnline -- 1999 vol. III 2400 1999

(d) Electricity delivered to a purchaser that receives its power directly from a transmission or distribution facility owned by an entity of the United States government on or before May 2, 1997, or electricity that is transmitted exclusively on transmission or distribution facilities owned by an entity of the United States government on or before May 2, 1997, is exempt from the tax imposed by this section.

(e) Electricity delivered by a distribution services provider to a customer with loads of 1,000 kilowatts or greater that was first served by a public utility after December 31, 1996, is exempt from the tax imposed by this section, provided that the customer purchases the electricity pursuant to a contract or contracts that establisb the purchase price or prices of electricity. The exemption allowed by this subsection (3)(e) does not apply to electricity purchased under a renewal or extension of an existing contract or existing contracts.

(4) A distribution services provider is allowed to recover the tax imposed by this section and the administrative costs to comply witb [sections 1 through 14] in its rates.

Section 5. Multistate exemption. A person, upon proof that tbe person has paid a tax in another state on the transmission of electricity, is allowed a credit against the tax imposed by [sections 1 through 14] if tbe tax has been paid in another state.

Section 6. Collection of wholesale energy transaction tax — disposition of revenue. (1) A transmission services provider shall collect the tax imposed under [section 4] from the taxpayer and pay the tax collected to the department. If the transmission services provider collects a tax in excess of the tax imposed by [section 4], both the tax and the excess must be remitted to the department.

(ii) an additional 50% of the taxable value attributable to electrical generation property under 15-6-141 within the district for tax year 1999, multiplied by 45%.

(b) Except as provided in subsection ~~(1)(c)~~ *(1)(d)*, the maximum amount for which a K-12 school district, as formed pursuant to 20-6-701, may become indebted by the issuance of bonds, including all indebtedness represented by outstanding bonds of previous issues and registered warrants, is up to 90% of the taxable value of the property subject to taxation, to be ascertained by the last-completed assessment for state, county, and school taxes previous to the incurring of the indebtedness, plus~~,~~:

(i) ~~for bonds to be issued during fiscal year 1997, an additional 11% of the taxable value of class eight property within the district for tax year 1995, for bonds to be issued during fiscal year 1998, an additional 22% of the taxable value of class eight property within the district for tax year 1995, and~~ for bonds to be issued during fiscal years 1999 through 2008, an additional 33% of the taxable value of class eight property within the district for tax year 1995, ~~in each case of class eight property,~~ multiplied by 90%*; and*

(ii) an additional 50% of the taxable value attributable to electrical generation property under 15-6-141 within the district for tax year 1999, multiplied by 90%.

(c) The total indebtedness of the high school district with an attached elementary district must be limited to the sum of 45% of the taxable value of the property for elementary school program purposes and 45% of the taxable value of the property for high school program purposes, adjusted as provided in this section.

~~(c)~~*(d)* (i) The maximum amount for which an elementary district or a high school district with a district mill value per elementary ANB or per high school ANB that is less than the corresponding statewide mill value per elementary ANB or per high school ANB may become indebted by the issuance of bonds, including all indebtedness represented by outstanding bonds of previous issues and registered warrants, is 45% of the corresponding statewide mill value per ANB times 1,000 times the ANB of the district. For a K-12 district, the maximum amount for which the district may become indebted is 45% of the sum of the statewide mill value per elementary ANB times 1,000 times the elementary ANB of the district and the statewide mill value per high school ANB times 1,000 times the high school ANB of the district.

The receiving district may not use out-of-district ANB for the purpose of calculating its maximum indebtedness if the out-of-district ANB has been included in the ANB of the sending district pursuant to the mutual agreement.

(2) The maximum amounts determined in subsection (1), however, may not pertain to indebtedness imposed by special improvement district obligations or assessments against the school district or to bonds issued for the repayment of tax protests lost by the district. All bonds issued in excess of the amount are void, except as provided in this section.

(3) When the total indebtedness of a school district has reached the limitations prescribed in this section, the school district may pay all reasonable

Section 31. Section 69-8-211, MCA, is amended to read:

"69-8-211. Public utilities — transition costs and charges — rate moratorium. (1) Subject to the provisions of this section, the commission sball allow recovery of the following categories of transition costs:

(a) the unmitigable costs of qualifying facility contracts, including reasonable buyout or buydown costs, for which the contract price of generation is above the market price for generation;

(b) the unmitigahle costs of energy supply-related regulatory assets and deferred charges that exist because of current regulatory practices and that can be accounted for up to the effective date of tbe commission's final order regarding a public utility's transition plan, including costs, expenses, and reasonable fees related to issuing of transition bonds;

(c) the unmitigable transition costs related to public utility-owned generation and other power purchase contracts, except that recovery of those costs is limited to the amount accruing during the first 4 years after the commission enters an order pursuant to 69-8-202(3); and

(d) other transition costs as may qualify for recovery under this section.

(2) Transition costs as determined by the commission upon an affirmative showing by a public utility must meet the following requirements:

(a) Transition costs must reflect all reasonable mitigation by the public utility, including but not limited to good faith efforts to renegetiate contracts, buying out or buying down contracts, and refinancing through transition bonds.

(b) The value of all generation-related assets and liabilities and electricity supply costs must be reasonably demonstrable and must be considered on a net basis, and methods for determining value must include but are not limited to:

(i) estimating future market values of electricity and ancillary services provided by the assets;

(ii) appraisal by independent third-party professionals; or

(iii) a competitive hid sale.

(c) Investments and power purchase contracts must have been previously allowed in rates or, if not previously in rates, must be determined to be used and useful to ratepayers in connection with the commission's approval of the utility's transition plan.

(d) Unless otherwise provided for in this chapter, only costs related to existing investments and power purchase contracts identified in subsection (2)(c) and costs arising from those investments and power purchase contracts may be included as transition costs.

(3) (a) On commission approval of the amount of a public utility's transition costs, those costs must be recovered through the imposition of a transition charge.

HeinOnline -- 1999 vol. III 2415 1999

(b) A transition charge may not be collected from customers for:

(i) new or additional loads of 1,000 kilowatts or greater that were first served by the public utility after December 31, 1996; or

(ii) loads served by that customer's own generation.

(c) Subject to commission approval, a utility and a customer may agree to alter the customer's transition charge payment schedule. Public utilities may file with the commission tariffs for electric service rates that foster economic development or retention of existing customers within the state, including generally available rate schedules. Transition charges are the only charges that may be imposed upon a customer class to recover transition costs under this section. A separate exit fee may not be charged.

(4) Transition charges must be imposed within a transition cost recovery period approved by the commission on a case-by-case basis. Except for transition costs recovered under subsection (1)(c), categories of transition costs may have varying transition cost recovery periods.

(5) Approval of transition costs and collection of those transition costs through transition charges is a settlement of all transition costs claims by a public utility. A public utility seeking to recover transition costs through any means not authorized by this chapter may not collect transition charges with respect to these transition costs.

(6) Except as provided in subsection (7), public utilities shall implement a rate moratorium during the transition period as follows:

(a) From July 1, 1998, through June 30, 2000, public utilities may not charge rates higher than those rates in effect on July 1, 1998.

(b) From July 1, 2000, through June 30, 2002, and only for those customers subject to the provisions of 69-8-201(1)(b), public utilities may not increase that increment of rates normally allocated to electric supply-related costs above the increment associated with electric supply-related costs reflected in rates in effect on July 1, 1998. Beginning on July 1, 2000, public utilities may propose increases to those increments of rates normally allocated to transmission and distribution costs.

(7) Excepted from the provisions of subsection (6) are:

(a) increased costs related to universal system benefits programs greater than those currently in rates, including the treatment of universal system benefits program costs as an expense;

(b) increased costs necessary to implement full customer choice, including but not limited to metering, billing, and technology. Those costs must be recovered from the customers on whose behalf the increased costs are incurred.

(c) subject to commission approval, an extraordinary event resulting in either:

(i) a 4% annual revenue requirement increase from July 1, 1998, through June 30, 2000; or

(ii) an 8% power supply-related annual revenue requirement increase from July 1, 2000, through June 30, 2002;

(d) ~~portions of~~ the increase or decrease in the annual state and local property tax expense that ~~are greater than the payment or adjustment that results from~~

HeinOnline -- 1999 vol. III 2416 1999

~~applying the industry-recognized rates of inflation to the increase or decrease in the state and local property tax expense reflected in rates as of~~ *has occurred since* May 2, 1997.

(8) Notwithstanding subsections (6) and (7), during the transition period, public utilities may not charge rates or collect costs that include costs reallocated to transition costs at a level higher than the public utility would reasonably expect to recover in rates had the current regulatory system remained intact.

(9) Public utilities shall apply savings resulting under 69-8-503 toward the rate moratorium pursuant to subsection (6).

(10) During the 4-year transition period, public utilities may accelerate the amortization of accumulated deferred investment tax credits associated with transmission, distribution, and the general plant as an adjustment to earnings if electric earnings fall below 9.5% earned return on average equity. The public utility may include the flow through of investment tax credits so that the public utility's earned return on equity is maintained at 9.5%. Accumulated deferred investment tax credits amortized under this subsection may not be reflected in operating income for ratemaking purposes.

(11) The commission shall issue the accounting orders necessary to align rate moratorium timing and requirements to actual transition bonds savings."

(b) (i) The pay schedules provided in 2-18-315 indicate the maximum hourly compensation for fiscal years ending June 30, ~~1998~~ *2000*, and June 30, ~~1999~~ *2001*, for employees in apprentice trades and crafts and other blue-collar occupations recognized in the state blue-collar classification plan who are members of units that have collectively bargained separate classification and pay plans.

(ii) The compensation of each employee on the first day of the first pay period in each fiscal year is that amount corresponding to the grade occupied on the last day of the preceding fiscal year.

(4) (a) (i) A member of a bargaining unit may not receive a pay increase until the employer's collective bargaining representative receives written notice that the employee's bargaining unit has ratified a completely integrated collective bargaining agreement covering the biennium ending June 30, ~~1999~~ *2001*.

(ii) If ratification of a completely integrated collective bargaining agreement, as required by subsection (4)(a)(i), is not completed by July 1, ~~1997~~ *1999*, retroactivity to that date may be negotiated.

(iii) If ratification of a completely integrated collective bargaining agreement, as required by subsection (4)(a)(i), is not completed by July 1, ~~1997~~ *1999*, members of the bargaining unit must continue to receive the compensation that they were receiving as of June 30, ~~1997~~ *1999*, until an agreement is ratified.

(b) Methods of administration not inconsistent with the purpose of this part and necessary to properly implement the pay schedules and adjustments provided in 2-18-312, 2-18-313, 2-18-315, and this section may be provided for in collective bargaining agreements.

(5) The current wage or salary of an employee may not be reduced by the implementation of the pay schedules provided for in 2-18-312, 2-18-313, and 2-18-315.

(6) The department may authorize a separate pay schedule for medical doctors if the rates provided in 2-18-312 are not sufficient to attract and retain fully licensed and qualified physicians ~~at the state institutions~~.

(7) (a) The department may develop and implement an alternative pay and classification plan through demonstration projects for certain classes, occupations, and work units. Pay for employees in the alternative pay and classification plan may be established and changed based on demonstrated competencies and accomplishments, on the labor market, and on other situations defined by the department.

(b) (i) The department may develop demonstration projects for protective service and public safety classes, information technology classes, brand inspector

classes in the department of livestock, managers in the department of commerce, counselors and resident care aides at the Montana chemical dependency center, health care facility surveyors at the department of public health and human services, classes in the department of revenue, and any other class or work unit appropriate for a demonstration project, as determined by the department.

(ii) To the extent that a project applies to employees within a collective bargaining unit, the implementation of the project is a negotiable subject under 39-31-305.

(iii) No employee whose position is excepted from the provisions of this section under this subsection (7)(b) will receive a pay increase for the fiscal years ending 2000 and 2001 less than that prescribed under this section.

~~(7)~~*(8)* The department may develop programs that enable the department to mitigate problems associated with difficult recruitment, retention, transfer, or other exceptional circumstances. To the extent that the program applies to employees within a collective bargaining unit, it is a negotiable subject under 39-31-305.

~~(8)~~*(9)* The department shall review the competitiveness of the compensation provided to all occupations under this part. If the department finds that substantial problems exist with recruitment and retention because of inadequate salaries when compared to competing employers, the department may establish criteria allowing an adjustment in pay or classification to mitigate the problems. To the extent that these adjustments apply to employees within a collective bargaining unit, the implementation of these adjustments is a negotiable subject under 39-31-305."

Section 4. Section 2-18-304, MCA, is amended to read:

"2-18-304. Longevity allowance. (1) (a) In addition to the compensation provided for in 2-18-303, 2-18-312, 2-18-313, or 2-18-315, each employee who has completed 5 years of uninterrupted state service must receive 1.5% of the employee's base salary multiplied by the number of completed, contiguous 5-year periods of uninterrupted state service.

(b) Beginning October 1, 1999, in addition to the longevity allowance provided under subsection (1)(a), each employee who has completed 15 years of uninterrupted state service or completed 20 years of uninterrupted state service must receive an additional 0.5% of the employee's base salary for each of those additional 5 years of uninterrupted service.

~~(b)~~*(c)* Service to the state is not interrupted by authorized leaves of absence.

(2) (a) For the purpose of determining years of service under this section, an employee must be credited with 1 year of service for each period of:

(i) 2,080 hours of service following the employee's date of employment; an employee must be credited with 80 hours of service for each biweekly pay period in which the employee is in a pay status or on an authorized leave of absence without pay, regardless of the number of hours of service in the pay period; or

(ii) 12 uninterrupted calendar months following the employee's date of employment in which the employee was in a pay status or on an authorized leave of absence without pay, regardless of the number of hours of service in any month. An employee of a school at a stato institution or the university system must be credited with 1 year of service if the employee is employed for an entire academic year.

HeinOnline -- 1999 vol. III 2431 1999

(b) State agencies, other than the university system and a school at a state institution, shall use the method provided in subsection (2)(a)(i) to calculate years of service under this section.

(3) For the purposes of calculating longevity, employment as a short-term worker does not apply toward years of service."

(6) The laws prohibiting discrimination on the basis of marital status in Title 49 do not prohibit bona fide group insurance plans from providing greater or additional contributions for insurance benefits to employees with dependents than to employees without dependents or with fewer dependents."

Section 10. Section 5-2-301, MCA, is amended to read:

"5-2-301. Compensation and expenses for members while in session. (1) Except as provided in subsection (8), legislators are entitled to a salary commensurate to that of the daily rate of an entry grade 8 *10* classified state employee in effect when the regular session of the legislature in which they serve is convened under 5-2-103 for those days during which the legislature is in session. The president of the senate and the speaker of the house ~~shall~~ *must* receive an additional $5 a day in salary for those days during which the legislature is in session.

(2) Legislators may serve for no salary.

(3) Subject to subsection (4), legislators are entitled to a daily allowance, 7 days a week, during a legislative session, as reimbursement for expenses incurred in attending a session. Expense payments must stop when the legislature recesses for more than 3 days and resume when the legislature reconvenes.

(4) After November 15, and prior to December 15 of each even-numbered year, the department of administration shall conduct a survey of the allowance for daily expenses of legislators for the states of North Dakota, South Dakota, Wyoming, and Idaho. The department shall include the average daily expense allowance for Montana legislators in determining the average daily rate for legislators. The department shall include only states with specific daily allowances in the calculation of the average. If the average daily rate is greater than the daily rate for legislators in Montana, the average is the new daily rate for legislators for those days during which the legislature is in session. The expense allowance is effective when the next regular session of the legislature in which the legislators serve is convened under 5-2-103.

(5) Legislators are entitled to a mileage allowance as provided in 2-18-503 for each mile of travel to the place of the holding of the session and to return to their place of residence at the conclusion of the session.

(8) In lieu of the salary provided for in subsection (1) and the expense allowance provided for in subsection (4), a legislator may receive remuneration for services performed during a legislative session. A legislator choosing to receive remuneration for services performed shall file a request to receive payment under this subsection with the legislative services division. A legislator exercising the option to receive remuneration for services performed may not receive more

(4) As used in this section, "warm water game fish" includes but is not limited to all species of the genera Stizostedion, Esox, Micropterus, and Lota and includes largemouth bass (Micropterus salmoides), smallmouth bass (Micropterus dolomieui), walleye (Stizostedion vitreum), sauger (Stizostedion canadense), black crappie (Pomoxis nigromaculatus), white crappie (Pomoxis annularis), channel catfish (Ictalurus punctatus), yellow perch (Perca flavescens), northern pike (Esox lucius), and tiger muskellunge.

No more than 15% of available revenue may be dedicated to eradication efforts.

(8) The department may not use any nonfederal funds for the hatchery authorized in [section 1] otber than those in the account provided for in subsection (5). (i) first became an active member on or after July 1, 1997; or

(ii) filed a voluntary, irrevocable election to be covered under this section. The election must be filed with the board prior to January 1, 1998, and requires an active member to pay an increased contribution rate from July 1, 1997, forward. A retired member or the member's survivor who is receiving a monthly benefit before July 1, 1997, shall also file the voluntary, irrevocable election no later than January 1, 1998, to be covered under this section.

(4) The board shall adopt rules to administer the provisions of this section."

Section 21. Section 19-3-103, MCA, is amended to read:

"19-3-103. Retirement system created. A retirement ~~system~~ *plan* is created and established to become effective July 1, 1945, and to be known as the public employees' retirement system. The ~~system~~ *plan* is governed by the provisions of chapter 2 and this chapter."

Section 22. Section 19-3-201, MCA, is amended to read:

"19-3-201. Contracts with political subdivisions. (1) Any municipal corporation, county, or public agency in the state may become a contracting employer and make all or specified groups of its employees members of the retirement system by a contract entered into between the board and the legislative body of the contracting employer. The contract may include any provisions that are consistent with chapter 2 and this chapter and necessary in the administration of the retirement system as it affects the contracting employer and its employees.

(2) The approval of the contract is subject to the following provisions, in addition to the other provisions of this chapter:

(a) The legislative body of the contracting employer shall adopt a resolution giving notice of intention to approve the contract and containing a summary of the major provisions of the retirement system. The contract may not be approved unless the employees proposed to be included in the retirement system adopt the proposal by a majority affirmative vote in a secret ballot. The ballot at the election must include the summary of the retirement system as set forth in the resolution. The election must be conducted as prescribed by the legislative body of the contracting employer. Approval of the contract must be by ordinance adopted by the affirmative vote of two-thirds of the members of the legislative body, ~~not less than~~ *within* 20 days after the adoption of the resolution or by an ordinance

HeinOnline -- 1999 vol. III 2461 1999

adopted by a majority vote of the electorate of the contracting employer voting on the contract.

(b) The contract must specify that all employees of the contracting employer or groups of employees as agreed to between the board and the contracting employer must become members. The groups of employees to be included must be by departments, duties, or other similar classifications and not by individual employees. The board may disapprove any classification into groups if, in its opinion, the classification affects adversely the interest of the retirement system. Membership in the retirement system is compulsory for all employees *who are* included under the contract and who are hired after the effective date of the contract.

(c) The contract may be amended in the manner prescribed in this section for the original approval of contracts. Groups of excluded employees may be subsequently included by amendment.

(3) The termination of the contract is subject to the following provisions, in addition to the other provisions of this chapter:

(a) The legislative body of a contracting employer shall adopt a resolution giving notice to its employees that it intends te terminate retirement coverage.

(b) All employees covered under the retirement system ~~shall receive~~ *must be given* notice of the termination resolution and be permitted to vote for or against the resolution by secret ballot.

(c) If a majority of covered employees votes for termination, the legislative body, ~~not less than~~ *within* 20 days after the approval of the resolution hy the employees, may adopt by a 2/3 majority a resolution terminating coverage under the system effective the last day of that month and forward the resolution and a certified copy of the election results to the board.

(d) Upon receipt of the termination resolution, the board may request an actuarial valuation of the liabilities of the terminating agency to the retirement system, and the board may withhold approval of the termination of contract until satisfactory arrangements are made to provide funding for any excess accrued liabilities not previously funded by the terminating agency."

Section 23. Section 19-3-319, MCA, is amended to read:

"19-3-319. State contributions for local government and school district employers. The state shall contribute monthly from the general fund to the pension trust fund a sum equal to 0.1% of the compensation of members employed by local government entities and school districts on and after July 1, 1997. The ~~division~~ *board* shall certify amounts due under this section on a monthly basis, and the state treasurer shall transfer those amounts to the pension trust fund within 1 week. The payment is statutorily appropriated as provided in 17-7-502."

Section 24. Section 19-3-401, MCA, is amended to read:

"19-3-401. Membership — inactive vested members — inactive nonvested members. (1) Except as otherwise provided in this chaptor, all employees shall become members on the first day of service. Each employer shall file with the board information affecting their employees' status as members of the retirement system as the board may require.

HeinOnline -- 1999 vol. III 2462 1999

(2) A member with at least 5 years of membership service who terminates service and does not take a refund of the member's accumulated contributions is an inactive vested member and retains the right to purchase service and to receive a service retirement benefit subject to the provisions of this chapter.

(3) A member with less than 5 years of membership service who terminates service and leaves the member's accumulated contributions in the pension trust fund is an inactive nonvested member and is not eligible for any benefits from the retirement system. An inactive nonvested member is eligible only for a refund of the member's accumulated contributions.

(4) ~~Every employee who reenters service shall become a member unless the employee has had an original election of exemption from membership and the employee's service was not interrupted by a break of more than 1 month. A seasonal employee who has had an original election of exemption from membership is not subject to the requirement regarding the break in service while continuing in the employee's original employment and employed on a seasonal basis, but upon termination of employment to accept new employment or absence of more than 1 month in returning to original employment in any ensuing season, the seasonal employee shall become a member of the retirement system upon reentry.~~ *A member who returns to service within 30 days of termination of service is an active member. Except as otherwise provided in this chapter, a member who terminates one service but remains in another service or subsequently reenters service is an active member.*

(5) Time during which an employee of a school district is absent from service during official vacation is counted as service in determining eligibility for membership under this chapter."

Section 25. Section 19-3-403, MCA, is amended to read:

"19-3-403. Exclusions from membership. The following persons may not become members of the retirement system:

(1) inmates of state institutions;

(2) persons in state institutions principally for the purpose of training but who receive compensation;

(3) independent contractors;

(4) persons who are members of any other retirement or pension system supported wholly or in part by funds of the United States government, any state government, or political subdivision of the state and who are receiving credit in the other system for service. It is the purpose of this subsection to prevent a person from receiving credit for the same service in two retirement systems supported wholly or in part by public funds, except when the service qualifies, is applied for, and is purchased pursuant to 19-3-503. A member of the retirement system who, because of employment by the state, is required to become a member of any other system described in this subsection is considered, solely for the purposes of making regular contributions, as permanently separated from service. Exclusion under this subsection is subject to the following exceptions:

(a) When an employer has entered into a collective bargaining agreement that includes provisions for payments or contributions by the employer in lieu of wages to a retirement or pension plan qualified by the internal revenue service for its employees, the employees remain eligible, if otherwise qualified, for membership in the retirement system.

HeinOnline -- 1999 vol. III 2463 1999

(b) For the purpose of this subsection (4), persons receiving pensions, retirement ~~allowances~~ *benefits*, or other payments from any source on account of employment other than as an employee are not considered, because of receipt, members of any other retirement or pension system.

(5) court commissioners, elected officials, or appointive members of any board or commission who serve the state or any contracting employer intermittently and who are paid on a per diem basis;

(6) full-time students employed at and attending the same public elementary school, high school, community college, or unit of the state university system, except that a person excluded from membership as a student of a public community college or a unit of the state university system who later becomes a member by otherwise becoming an employee may affirmatively exercise the option of qualifying the service excluded by this subsection by applying to the board in writing after becoming a member and become eligible to receive credited service for the excluded service under the provisions of 19-3-505."

Section 26. Section 19-3-412, MCA, is amended to read:

"19-3-412. Optional membership. (1) The following employees in covered employment may become members of the retirement system at their option at any time during their employment in a covered position by filing a membership card with the board:

(a) elected officials of the state or local governments who are paid on a salary or wage basis rather than on a per diem or other reimbursement basis;

(b) ~~part-time~~ employees serving in employment that does not *cumulatively* exceed a total of 960 hours of *covered* employment ~~covered by~~ *with all employers under* this chapter in any fiscal year;

(c) employees directly appointed by the governor;

(d) employees working 6 months or less for the legislative branch to perform work related to the legislative session;

(e) the chief administrative officer of any city or county;

(f) employees of county hospitals or rest homes in counties of the third, sixth, and seventh class.

(2) If an employee declines optional membership, the employee shall execute a statement waiving membership and the employer shall retain the statement. *An employee who declines optional membership may not receive membership credit or service credit for the employment for which membership was declined.*

(3) An employee who declined optional membership but later becomes a member may qualify service credit for the period of time beginning with the date of employment in which membership was declined to the commencement of membership. Qualification of service pursuant to this subsection must comply with 19-3-505.

(4) Membership in the retirement system is not optional for an employee who is already a member. Upon employment in a position for which membership is optional:

(a) a member who was an active member before the employment remains an active member;

(b) a member who was an inactive member before the employment becomes an active member; and

(c) a member who was a retired member before the employment is subject to part 11 of this chapter.

(5) An employee who declines membership while employed in a position for which membership is optional may not later become a member while still employed in that position. If, after a break in service of 30 days or more an employee who was a member in an optional membership position is reemployed in the same position or is employed in a different position for which membership is optional, the employee shall again choose or decline membership. However, if the break in service is less than 30 days, an employee who declined membership is bound by the employee's original decision to decline membership.

(6) An employee accepting a position that requires membership shall become a member even if the employee previously declined membership and did not have a 30-day break in service."

Section 27. Section 19-3-505, MCA, is amended to read:

"19-3-505. Qualification of previous employment with employer. (1) Subject to the provisions of this section, ~~any person~~ *a member* who has employment *for which optional membership was declined or employment* with an employer ~~that is not service~~ *prior to the employer's contract coverage* may ~~convert~~ *request to qualify* all or a portion of the employment ~~to~~ *as* membership service by filing written ~~notice~~ *application* with the board.

(2) (a) ~~The person~~ *If the board approves the application, the member* shall pay to the ~~retirement system~~ *board* the sum of the amount that the ~~person~~ *member* and the ~~person's~~ *member's* employer would have contrihuted during the period of ~~service~~ *employment* ~~converted~~ if the ~~employer~~ *employment* had been ~~an employer~~ covered by the retirement system and the regular interest that would have accumulated on the amount to the time of payment. However, the employer may pay the employer's portion, including accrued regular interest as provided in subsection (2)(b).

(b) The employer shall establish a policy as to the payment of retroactive employer contributions and apply this policy indiscriminately for all employees and former employees. All employee appeals of discrimination are subject to the determination of the board. All successful appeals obligate the employer to pay the employer and employee contributions with accrued interest for that employee filing the appeal with the hoard. Each appeal must be heard on its individual merits and may not bind the employer to pay all retroactive payments for all former and present employees.

(3) A member may secure service credit not previously credited by submitting salary information certified by the member's employer or former employer to the board. The board shall determine the eligibility of all service credit requests.

(4) Payment may he made in one sum at the time of filing notice or by making additional contributions on an installment basis before retirement. Failure to make regular monthly payments in any month in which the member receives normal compensation forfeits the person's right to make any furtber installment payments, unless permission is granted by the board."

Section 28. Section 19-3-509, MCA, is amended to read:

HeinOnline -- 1999 vol. III 2465 1999

"19-3-509. Qualification of other Montana public service. (1) (a) A member may, at any time before retirement, make a written election with the board to qualify as service in this retirement system all or any portion of the member's service credit in the highway patrol officers', sheriffs', game wardens', firefighters' unified, or municipal police officers' retirement system for which the member either has received or is eligible to receive a refund of membership contributions. To qualify this service, the member shall contribute to the pension trust fund the actuarial cost of granting the service in the public employees' retirement system, as determined by the board, based on the most recent actuarial valuation minus the employer contribution provided in subsection (1)(b). ~~This service may not be credited in more than one retirement system under Title 19.~~

(b) Upon receiving the member's payment under subsection (1)(a), the ~~division~~ *board* shall transfer from the member's former retirement system to the public employees' retirement system an amount equal to the employer contributions made during the member's service but no more than an amount equal to the normal cost contribution rate minus the employee contribution rate in the public employees' retirement system, according to the most recent actuarial valuation, based on the salaries earned by the employee as a member of the former system.

(2) (a) A member may, at any time before retirement, make a written election with the board to qualify any full-time public service employment performed for the state or a political subdivision of the state. The member shall provide salary and employment documentation certified by the member's former public employer. The board may grant service credit upon contribution by the employee of the actuarial cost of granting this service in the public employees' retirement system, as determined by the board, based on the most recent actuarial valuation of the system.

(b) The board is the sole authority under this subsection (2) in determining what constitutes full-time public service.

~~(c) This service may not be credited in more than one retirement system under Title 19.~~"

Section 29. Section 19-3-512, MCA, is amended to read:

"19-3-512. Qualification of service from other public retirement systems. (1) A member with 5 or more years of membership service in the public employees' retirement system may qualify:

(a) public service employment covered under a public retirement system other than a system provided for in Title 19 for which the member received a refund of the member's membership contribution; and

(b) public service employment that occurred before the public employer adopted a public retirement system.

(2) A member may not qualify more than 5 years of service under this section. To qualify this service, a member shall:

(a) at any time before retirement make a written election with the board to qualify the service; and

(b) contribute to the pension trust fund the actuarial cost of granting the service in the public employees' retirement system, as determined by the board based on the most recent actuarial valuation of the system.

HeinOnline -- 1999 vol. III 2466 1999

(3) Contributions to qualify service under this section may be made in a lump-sum payment or by making additional contributions in installments as agreed upon by the member and the board.

(4) Service qualified under this section may not be:

~~(a) credited in any other retirement system under Title 19; or~~

~~(b)~~ used to qualify a member to purchase military service under 19-3-503.

(5) Service qualified under this section may not be used in calculating a member's retirement benefit unless the member's last 5 years of service credit were earned under the public employees' retirement system. If a member's qualified service may not be used in calculating the member's retirement benefit, the member may choose to receive a refund of the accumulated contributions made to qualify the service."

Section 30. Section 19-3-521, MCA, is amended to read:

"19-3-521. Service credit for legislative members. A member of the legislature of Montana must be credited with membership service for that portion of each year for which the member pays ~~normal~~ *regular* contributions."

Section 31. Section 19-3-904, MCA, is amended to read:

"19-3-904. Amount of service retirement benefit. ~~(1)~~ The monthly amount of retirement benefit payable to a member following service retirement is the greater of subsection (1)~~(a)~~ or ~~(1)(b)~~ *(2)* as follows:

~~(a)~~*(1)* one fifty-sixth of the member's final average salary multiplied by the number of years of the member's total service credit; or

~~(b)~~*(2)* a monthly ~~annuity~~ *benefit* that is the actuarial equivalent of double the member's ~~accumulated~~ regular contributions *plus regular interest.*

~~(2) If a member dies after retirement and has not elected an optional retirement allowance provided for in 19-3-1501, the member's beneficiary will be paid the excess, if any, of the member's accumulated contributions on the day the member's retirement allowance commenced over the total of the retirement allowance payments made to the retired member.~~"

Section 32. Section 19-3-1005, MCA, is amended to read:

"19-3-1005. Application for disability retirement benefit. The board shall grant a disability retirement benefit to any member who has fulfilled the eligibility requirements of 19-3-1002 and filed the appropriate written application. An application may be filed on a member's behalf by the head of the office or department in which the member is or was last employed or by any other person on behalf of the member, or the board upon its own motion may make the application. Application must be made within 4 months after the member's ~~discontinuance of~~ *termination from* service unless the member is disabled continuously from the date of ~~discontinuance of~~ *termination from* service to the date of the application."

Section 33. Section 19-3-1015, MCA, is amended to read:

"19-3-1015. Medical examination of disability retiree — cancellation and reinstatement. (1) The board may, in its discretion, require a disabled member to undergo a medical examination. The examination must be made by a physician or surgeon appointed by the board, at a place mutually agreed upon by the retired member and the board. Upon the basis of the examination,

HeinOnline -- 1999 vol. III 2467 1999

the board shall determine whether the disabled member is unable, by reason of physical or mental incapacity, to perform the essential elements of either the position held by the member when the member retired or the position proposed to be assigned to the member. If the board determines the member is not incapacitated or if the member refuses to submit to a medical examination, the member's retirement benefit must be canceled.

(2) If the board determines that a disabled member should no longer be subject to medical review, the board may grant service retirement status to the member without recalculating the monthly benefit. The board shall notify the member in writing as to the change in status. If the disabled member disagrees with the board's determination, the member may ~~request~~ *make a written application to* the board to *request the board to* reconsider its action. The ~~request~~ *written application* for reconsideration must be made ~~in writing~~ within 60 days after receipt of the notice of the status change.

(3) (a) Except as provided in subsections (3)(b) and (3)(c), a member whose disability retirement benefit is canceled because the board has determined that the member is no longer incapacitated must be reinstated to the position held by the member immediately before the member's retirement or to a position in a comparable pay and benefit category with duties within the member's capacity if the member was an employee of the state or of the university. If the member was an employee of a contracting employer, the board shall notify the proper official of the contracting employer that the disability retirement benefit has been canceled and that the former employee is eligible for reinstatement to duty. The fact that the former employee was retired for disability may not prejudice any right to reinstatement to duty that the former employee may have or claim to have.

(b) A member who is employed by an employer terminates any right to reinstatement provided by this section.

(c) This section does not affect any requirement that the former employee meet or be able to meet professional certification and licensing standards unrelated to the disability and necessary for reinstatement to duty.

(4) If a member whose disability retirement benefit is canceled is not reemployed in a position subject to the retirement system, the member's service is considered, for the purposes of 19-2-602, to have been discontinued coincident with the commencement of the member's retirement benefit."

Section 34. Section 19-3-1103, MCA, is amended to read:

"19-3-1103. Disability benefit reduced by earnings — change in retirement status. (1) (a) If the recipient of a disability retirement benefit engages in a gainful occupation during any month other than in a position covered by the retirement system, the amount of the recipient's retirement benefit for that month must be reduced to an amount that, when added to the compensation earned by the recipient in that occupation, does not exceed the amount of the recipient's monthly compensation at the time of the recipient's retirement.

(b) ~~For the purpose of calculating a reduction under subsection (1)(a), the~~ *The* board, ~~at~~ *upon* the ~~request~~ *written application* of a recipient of a disability retirement benefit, may adjust the recipient's monthly compensation as it was at the time of retirement by an inflationary factor if the recipient has been receiving a disability retirement benefit for more than 36 consecutive months.

HeinOnline -- 1999 vol. III 2468 1999

(2) At the request of a recipient of a disability retirement benefit who is age 60 or older, the board may grant service retirement status to the recipient without recalculating the recipient's monthly benefit.

(3) Benefit adjustments granted by the legislature may not be included in calculations required under this section."

Section 35. Section 19-3-1106, MCA, is amended to read:

"19-3-1106. Limited reemployment — reduction of service retirement benefit upon exceeding limits — exception. (1) A retired member under 65 years of age who is receiving a service retirement benefit may return to employment covered by the retirement system for a period not to exceed 640 hours in any calendar year without returning to active service and without any effect to the retiree's retirement benefit. The retirement benefit for any retiree exceeding this 640-hour limitation in any calendar year after retirement must be temporarily reduced $1 for each $1 earned after working 640 hours in that calendar year.

(2) A retiree 65 years of age or older who returns to employment covered by the retirement system is either subject to the 640-hour limitation of subsection (1) or may earn in any calendar year an amount that, when added to the retiree's current annual retirement benefits, will not exceed the member's annualized final average salary, adjusted for inflation as of January 1 of the current calendar year, whichever limitation provides tbe higher limit on earned compensation to the retiree. Upon reaching the applicahle limitation, the retiree's benefits must be temporarily reduced $1 for each $1 of compensation earned in covered service beyond the applicable limitation during that calendar year.

(3) A retiree returning to employment covered by the retirement system *and the returning employee's employer* shall ~~report~~ *certify* to the board the number of hours worked by the retiree and the gross compensation paid to the retiree in that employment during any month after retirement.

(4) A retiree returning to employment covered by the retirement system may elect to return to active membership at any time during this period of covered employment.

(5) A retired member 70 1/2 years of age or older who returns to employment covered by the retirement system is not subject to the hour or earnings limitations in subsections (1) and (2) or the reporting requirements in subsection (3)."

Section 36. Section 19-3-1204, MCA, is amended to read:

"19-3-1204. Survivorship benefit elected by beneficiary. (1) A designated beneficiary eligible to receive a lump-sum death payment may elect, by written application, a survivorship benefit instead, if all of tbe following conditions are met:

(a) The member on behalf of whom the death benefit is payable had completed 5 years of membership service.

(b) The designated beneficiary is a natural person.

(c) The designated beneficiary elects the survivorship benefit within 90 days of receipt of notice from the board that the designated beneficiary is eligible to receive the lump-sum death payment.

(2) The designated beneficiary of a vested member may elect to receive a survivorship benefit in lieu of a lump-sum payment of the member's account.

HeinOnline -- 1999 vol. III 2469 1999

~~(2)~~*(3)* (a) If the designated beneficiary is a minor, the custodian designated in 19-2-803 may, on the minor's behalf, file a written application with the board.

(b) If an application is not filed on the minor's behalf *and no payment has been made*, the designated beneficiary may file a written application upon reaching the age of majority. For the purposes of this subsection *(3)*(b), the survivorship benefit provided for in 19-3-1205 must be calculated as if the member had died on the last day of the month before the month in which the application was filed."

Section 37. Section 19-3-1210, MCA, is amended to read:

"19-3-1210. Death payments to designated beneficiaries of retired members. If a retired member ~~receiving a regular retirement benefit~~ dies without designating a contingent annuitant under 19-3-1501, the member's designated beneficiary must be paid the ~~excess~~ *amount*, if any, of the member's accumulated contributions ~~on~~ *calculated as of* the day ~~that~~ the member's retirement ~~benefit commenced over~~ *minus* the total of ~~the~~ *any* retirement ~~benefit payments made to the retired member~~ *benefits already paid from the member's account*."

Section 38. Section 19-3-1501, MCA, is amended to read:

"19-3-1501. Optional forms of benefits. (1) The retirement benefit of a member or the survivorship benefit of a designated beneficiary who makes an election must be converted, in lieu of all other benefits under this chapter, into an optional retirement benefit that is the actuarial equivalent of the original benefit. The optional retirement benefit is initially payable during the member's or designated beneficiary's lifetime, with a subsequent benefit to the contingent annuitant whom the member or designated beneficiary nominated by written designation, executed and filed with the board on the application for benefits, as follows:

(a) Option 2—a continuation of the reduced amount after the death of the initial payee and payable during the lifetime of the named contingent annuitant;

(b) Option 3—a continuation of one-half of the reduced amount after the death of the initial payee and payable during the lifetime of the named contingent annuitant;

(c) Option 4—upon the initial payee's death, other actuarially equivalent amounts as may be approved by the board.

(2) Election of an optional retirement benefit must be by written application filed prior to the first payment of the benefit.

(3) If a benefit recipient or the recipient's contingent annuitant dies before the first payment has been made under option 2 or 3, the election of the option is automatically canceled.

(4) If a member dies after retirement and within 30 days from the date the member's election or changed election of an optional retirement benefit is received by the board, then the election is void and the death is considered as that of a member before retirement.

(5) (a) Upon written ~~request~~ *application* to the board, a retired member who is receiving an optional retirement benefit may designate a different contingent annuitant, select a different option, or convert the member's optional retirement benefit to a regular retirement benefit if:

HeinOnline -- 1999 vol. III 2470 1999

(i) the original contingent annuitant has died; or

(ii) the member has been divorced from the original contingent annuitant and the original contingent annuitant has not been granted the right to receive the optional retirement benefit as part of the divorce settlement.

(b) Upon receipt of the ~~request~~ *written application*, the board shall actuarially adjust the member's monthly retirement benefit to reflect the change."

Section 39. Section 19-3-1605, MCA, is amended to read:

"**19-3-1605. Guaranteed annual benefit adjustment.** (1) Subject to subsection (2), on January 1 of each year, the permanent monthly benefit payable during the preceding January to each recipient who is eligible under subsection (3) must be increased by 1.5%.

(2) (a) If a recipient's benefit payable during the preceding January has been increased by one or more adjustments not provided for in this section and the adjustments amount to less than a 1.5% annualized increase, then the recipient's benefit must be adjusted by an amount that will provide a total annualized increase of 1.5% in the benefit paid since the preceding January.

(b) If a recipient's benefit payable during the preceding January has been increased by one or more adjustments not provided for in this section and the increases amount to more than a 1.5% annualized increase, then the benefit increase provided under this section must be 0%.

(c) If a benefit recipient is a contingent annuitant receiving an optional benefit upon the death of the original payee that occurred since the preceding January, the new recipient's monthly benefit must be increased to 1.5% more than the amount that the contingent annuitant would have received had the contingent annuitant received a benefit during the preceding January.

(3) Except as provided in subsection (2)(b), a benefit recipient is eligible for and must receive the minimum annual benefit adjustment provided for in this section if:

(a) the benefit's ~~initiation~~ *commencement* date is at least 36 months prior to January 1 of the year in which the adjustment is to be made; and

(b) the benefit recipient is not an active member of a public retirement system covered by this title.

Section 41. Section 19-5-401, MCA, is amended to read:

"**19-5-401. Payments into pension trust fund.** All appropriations made by the state of Montana, all contributions by members, and all interest on and increase of the investments and money in the pension trust fund must be paid to the ~~division~~ *board*, which shall credit the payments to the fund. These funds may be commingled with other pension trust funds of the ~~division~~ *board*, but separate accounts must be maintained for the judges' retirement system."

HeinOnline -- 1999 vol. III 2471 1999

Section 42. Section 19-5-503, MCA, is amended to read:

"19-5-503. Involuntary retirement benefit. (1) If a member is involuntarily discontinued from service after having completed 5 years of membership service but before reaching retirement age, the member shall, upon filing an application in the manner prescribed by the board, be paid an involuntary retirement benefit of equivalent actuarial value to the service retirement benefit payable under 19-5-502 then standing to the member's credit.

(2) ~~If a member elected or appointed to office prior to July 1, 1983, is involuntarily discontinued from service after having earned at least 12 years of service credit but before reaching service retirement age, the member must, upon filing an application in the manner prescribed by the board, be paid the service retirement benefit provided for in 19-5-502.~~

(2) Election of an optional retirement benefit must be by written application filed prior to the first payment of the benefit.

(3) If a benefit recipient or the recipient's contingent annuitant dies before the first payment has been made under option 2 or 3, the election of the option is automatically canceled.

(4) If the member dies after retirement and within 30 days from the date the member's election or changed election of an optional retirement benefit is received by the board, the election is void and the death is considered as that of a member before retirement.

(5) (a) Upon written application to the board, a retired member who is receiving an optional retirement benefit may designate a different contingent annuitant, select a different option, or convert the member's optional retirement benefit to a regular retirement benefit if:

The fact that the recipient was retired for disability may not prejudice any right to reinstatement to duty that the recipient may have or claim to have.

(b) This section does not affect any requirement that the former employee meet or be able to meet professional certification and licensing standards unrelated to the disability and necessary for reinstatement to duty.

(4) The department of justice may request a medical or psychological review as to the ability of the recipient to return to work as a member of the highway patrol. If the board's findings are upheld, the department of justice shall pay the cost of the review."

(5) Provisions revoked solely by this section are revived by the divorced individual's remarriage to the former spouse or by a nullification of the divorce or annulment.

(6) No change of circumstances other than as described in this section and in 72-2-813 effects a revocation.

(7) (a) A payor or other third party is not liable for having made a payment or transferred an item of property or any other benefit to a beneficiary designated in a governing instrument affected by a divorce, annulment, or remarriago, or for having taken any other action in good faith reliance on the validity of the governing instrument, before the payor or other third party received written notice of the divorce, annulment, or remarriage. In addition to the actions available under this section, the payor or other third party may take any action authorized by law or the governing instrument. If probate proceedings have not been commenced, the payor or other third party shall file with the court a copy of the written notice received by the payor or other third party, with the payment of funds or transfer or deposit of property. Payments, transfers, or deposits made to or with the court discharge the payor or other third party from all claims for the value of amounts paid to or items of property transferred to or deposited with the court.

(8) (a) A bona fide purchaser who purchases property from a former spouse, relative of a former spouse, or any other person or who receives from a former spouse, relative of a former spouse, or any other person a payment or other item of property in partial or full satisfaction of a legally enforceable obligation is neither obligated under this section to return the payment, item of property, or benefit nor liable under this section for the amount of the payment or the value of the item of property or benefit. Each coal mine operator shall provide a statement of the tons of coal sold to each purchaser for the quarter. The completed form in duplicate, with the tax payment, must be delivered to the department not later than 30 days following the close of the quarter. (2) Except as provided in subsection (3), interest must be allowed on overpayments at the same rate that is charged on deficiency assessments provided in 15-35-112 due from the due date of the return or from the date of overpayment, whichever date is later, to the date the department approves refunding or crediting of the overpayment.

If the taxpayer, before the expiration of the period prescribed for assessment of the tax, consents in writing to an assessment after that time, the tax may be assessed at any time prior to the expiration of the period agreed upon.

(2) A refund or credit may not be allowed or paid with respect to the year for which a return is filed after 5 years from the last day prescribed for filing the return or after 1 year from the date of the overpayment, whichever period expires later, unless before the expiration of the period the taxpayer files a claim for the refund or credit or the department has determined the existence of the overpayment and has approved the refund or credit. If the taxpayer has agreed in writing under the provisions of subsection (1) to extend the time within which the department may propose an additional assessment, the period within which a claim for refund or credit may be filed or a credit or refund allowed if a claim is not filed is automatically extended.

HeinOnline -- 1999 vol. III 2508 1999

(5) If reasonable efforts have been made to prevent removal of a ehild from the home or to return a child to the child's home but continuation of the efforts is determined by the court to be inconsistent with the permanency plan for the child, the department shall make reasonable efforts to place the child in a timely manner in accordance with the permanency plan and to complete whatever steps are neccssary to finalize the permanent placement of the ehild. ~~(4)~~*(7)* An order for temporary investigative authority and protective services may not be issued for a period longer than 90 days following the show cause hearing and must be limited to one extension of 90 days. ~~(b) in~~*(5) In* its discretion, *the court may* enter any other order that it determines to be in the best interests of the child *that does not conflict with the provisions in subsection (6) and* that does not require an expenditure of money by the department unless the department is notified and a court hearing is set in a timely manner on the proposed expenditure. The department is the payor of last resort after all family, insurance, and other resources have been examined.

~~(5)~~*(6)* If the permanency plan hearing results in ~~an order for a 6-month extension of temporary legal custody, upon the expiration of the temporary legal custody order and the filing of a petition by the department and if the court finds~~ *a finding* that reunification of the child with the child's parent or guardian is not in the best interests of the child, ~~the court shall order~~ *any subsequent petition filed must be one of the following*:

(a) termination of parental rights if the applicable requirements to terminate parental rights have been met; ~~or~~

(b) long-term custody of a child if the evidence demonstrates by a preponderance of the evidence, *which is reflected in specific findings by the court,* that:

(i) *the child has an emotional or mental handicap that is so severe that the child cannot function in a family setting and the best interests of the child are served by placement in a residential or group setting;*

(ii) the child is at least 16 years of age and is participating in an independent living program and that termination of parental rights is not in the best interests of the child;

(iii) the child's parent is incarcerated and circumstances, including placement of the child and continued, frequent contact with the parent, indicate that it would not be in the best interests of the child to terminate parental rights of that parent;

(iv) the child is in a group of siblings, at least one of whom meets the requirements of subsections (6)(b)(v)(A) through (6)(b)(v)(D), and the best interests of the child will be met by continued placement in the sibling group in long-term foster care; or

(v) the child is at least 12 years of age and meets the following criteria:

(A) the child has been adjudicated a youth in need of care;

~~(ii)~~*(B)* the department has made reasonable efforts to reunite the parent and child, further efforts by the department would likely be unproductive, and reunification of the child with the parent or guardian would be contrary to the best interests of the child;

~~(iii) the child has reached 12 years of age;~~

~~(iv)~~*(C)* termination of parental rights to the child is not in the child's best interests; and

~~(v)~~*(D)* the child has been in a placement in which the foster parent has committed to the long-term care and to a relationship with the child, and it is in the best interests of the child to remain in that placement.

~~(6)~~*(7)* The court may terminate long-term custody upon petition of the birth parents~~, those to whom legal custody has been transferred,~~ or the department if the court finds that the circumstances of the child or family have substantially changed and the best interests of the child are no longer being served."

HeinOnline -- 1999 vol. III 2535 1999

Section 13. Review hearing. Within 12 months of a finding that reunification is not in the best interests of the child, the court shall make additional findings regarding the department's reasonable efforts to make and finalize a permanent placement for the child.

Section 14. When petition to terminate parental rights required. (1) If a child has been in foster care under the custody of the state for 15 months of the most recent 22 months, the best interests of the child must be presumed to be served by termination of parental rights. If a child has been in foster care for 15 months of the most recent 22 months or if the court has found that reasonable efforts to preserve or reunify a child with the child's parent or guardian are not required pursuant to 41-3-403, a petition to terminate parental rights must be filed unless:

(a) the child is being cared for by a relative;

(b) the department has not provided the services considered necessary for the safe return of the child to the child's home; or

(c) the department has documented a compelling reason, available for court review, for determining that filing a petition to terminate parental rights would not be in the best interests of the child.

(2) Compelling reasons for not filing a petition to terminate parental rights include but are not limited to the following:

(a) There are insufficient grounds for filing a petition.

(b) There is adequate documentation that termination of parental rights is not the appropriate plan and not in the best interests of the child.

(3) If a child has been in foster care for 15 months of the most recent 22 months and a petition to terminate parental rights regarding that child has not been filed with the court, the department shall file a report to the court or review panel at least 3 days prior to the next hearing or review detailing the reasons that the petition was not filed.

(4) If a hearing results in a finding of abandonment or that the parent has subjected the child to any of the circumstances listed in 41-3-403(2)(a) through (2)(e) and that reasonable efforts to provide preservation or reunification are not necessary, unless there is an exception made pursuant to subsections (1)(a) through (1)(c) of this section, a petition to terminate parental rights must be filed within 60 days of the finding.

Section 15. Treatment plan — contents — changes. (1) Upon the stipulation of the parties or upon a judicial finding that a child is a youth in need of care, the court may order a treatment plan.

(2) Every treatment plan must contain the following information:

(a) the identification of the problems or conditions that resulted in the abuse or neglect of a child;

(b) the treatment goals and objectives for each condition or requirement established in the plan. If the child has been removed from the home, the treatment plan must include but is not limited to the conditions or requirements that must be established for the safe return of the child to the family.

(c) the projected time necessary to complete each of the treatment objectives;

HeinOnline -- 1999 vol. III 2536 1999

(d) the specific treatment objectives that clearly identify the separate roles and responsibilities of all parties addressed in the treatment plan; and

(e) the siguature of the parent or parents or guardian, unless the plan is ordered by the court.

(3) A treatment plan may include but is not limited to any of the following remedies, requirements, or conditions:

(a) the right of entry into the child's home for the purpose of assessing compliance with the terms and conditions of a treatment plan;

(b) the requirement of either the child or the child's parent or guardian to obtain medical or psychiatric diagnosis and treatment through a physician or psychiatrist licensed in the state of Montana;

(c) the requirement of either the child or the child's parent or gnardian to obtain psychological treatment or counseling;

(d) the requirement of either the child or the child's parent or guardian to obtain and follow through with alcohol or substance abuse evaluation and counseling, if necessary;

(e) the requirement that either the child or the child's parent or guardian be restricted from associating with or contacting any individual who may be the subject of a department investigation;

(f) the requirement that the child be placed in a temporary medical facility or a facility for protection of the youth;

(g) the requirement that the parent, gnardian, or other person having physical or legal custody furnish services that the court may designate.

(4) A treatment plan may not be altered, amended, continued, or terminated without the approval of the parent or parents or guardian pursuant to a stipulation and order or order of the court.

Section 16. Section 41-3-607, MCA, is amended to read:

"41-3-607. Petition for termination — separate hearing — right to counsel — no jury trial. (1) The termination of a parent-child legal relationship may be considered only after the filing of a petition pursuant to 41-3-401 alleging the factual grounds for termination pursuant to 41-3-609. If termination of a parent-child legal relationship is ordered, the court may transfer permanent legal custody of the child, with the right to consent to the child's adoption, to:

(a) the department;

(b) a licensed child-placing agency; or

(c) another individual who has been approved by the department and has received consent for the transfer of custody from the department or agency that has custody of the child.

(2) ~~After~~ *At the time that* a petition for termination of a parent-child relationship is filed, parents must be advised of the right to counsel, and counsel must be appointed ~~in accordance with 41-3-401~~ *for an indigent party*.

(3) A guardian ad litem must be appointed to represent the child's best interests in any hearing determining the involuntary termination of the parent-child legal relationship. The guardian ad litem shall continue to represent the child until the child is returned home or placed in an appropriate permanent

placement. If a respondent parent is a minor, a guardian ad litem must be appointed to serve the minor parent in addition to any counsel requested by the parent.

(4) There is no right to a jury trial at proceedings held to consider the termination of a parent-child legal relationship."

Section 17. Section 41-3-609, MCA, is amended to read:

"41-3-609. Criteria for termination. (1) The court may order a termination of the parent-child legal relationship upon a finding that any of the following circumstances exist:

(a) the parents have relinquished the child pursuant to 42-2-402 and 42-2-412;

(b) the child has been abandoned by the parents ~~as set forth in 41-3-102~~;

(c) ~~the identity of the parent is unknown and has been unknown for a period of 90 days and reasonable efforts to identify and locate the parent have failed;~~

~~(d)~~ the parent is convicted of a felony in which sexual intercourse occurred or is a minor adjudicated a delinquent youth because of an act that, if committed by an adult, would be a felony in which sexual intercourse occurred and, as a result of the sexual intercourse, the child is born;

(d) the parent has subjected the child to any of the circumstances listed in 41-3-403(2)(a) through (2)(e);

(e) the putative father meets any of the criteria listed in 41-3-403(3)(a) through (3)(c); or

~~(e)~~*(f)* the child is an adjudicated youth in need of care and both of the following exist:

(i) an appropriate treatment plan that has been approved by the court has not been complied with by the parents or has not been successful; and

(ii) the conduct or condition of the parents rendering them unfit is unlikely to change within a reasonable time~~; or~~

~~(f) the parent has substantially failed to successfully complete or meet the goals of a treatment plan approved by the court and the child has been in an out-of-home placement for a cumulative total period of 1 year or longer~~.

(2) In determining whether the conduct or condition of the parents is unlikely to change within a reasonable time, the court shall enter a finding that continuation of the parent-child legal relationship will likely result in continued abuse or neglect or that the conduct or the condition of the parents renders the parents unfit, unable, or unwilling to give the child adequate parental care. In making the determinations, the court shall consider but is not limited to the following:

(a) emotional illness, mental illness, or mental deficiency of the parent of a duration or nature as to render the parent unlikely to care for the ongoing physical, mental, and emotional needs of the child within a reasonable time;

(b) a history of violent behavior by the parent;

HeinOnline -- 1999 vol. III 2538 1999

~~(d)~~ excessive use of intoxicating liquor or of a narcotic or dangerous drug that affects the parent's ability to care and provide for the child; *and*

~~(f) the injury or death of a child because of proven abuse or neglect; and~~

~~(g) any reasonable efforts by protective service agencies that have been unable to rehabilitate the parent.~~

(3) In considering any of the factors in subsection (2) in terminating the parent-child relationship, the court shall give primary consideration to the physical, mental, and emotional conditions and needs of the child. ~~The court shall review and, if necessary, order an evaluation of the child's or the parent's physical, mental, and emotional conditions.~~

(4) A treatment plan is not required under this part upon a finding by the court following hearing if:

(a) the parent meets the criteria of subsections (1)(a) through (1)(e);

~~(a)~~*(b)* two medical doctors or clinical psychologists submit testimony that the parent cannot assume the role of parent;

~~(b)~~*(c)* the parent is *or will be* incarcerated for more than 1 year and ~~a treatment plan is not practical considering the incarceration~~ *reunification of the child with the parent is not in the best interests of the child because of the child's circumstances, including placement options, age, and developmental, cognitive, and psychological needs*; or

~~(c)~~*(d)* the death or serious bodily injury, as defined in 45-2-101(64), of a child caused by abuse or neglect by the parent has occurred."

Section 18. Section 41-3-1103, MCA, is amended to read:

(g) administer all funds allocated to the department for residential alcohol and drug abuse treatment for indigent youths in need of care, indigent youths in need of intervention, and indigent delinquent youths who require treatment.

(2) The department may:

Section 19. Section 42-2-608, MCA, is amended to read:

"42-2-608. Finding of unfitness. (1) The court may terminate parental rights for purposes of making a child available for adoption on the grounds of unfitness if:

(c) it is proven, to the satisfaction of the court, that the parent, if able, has not contributed to the support of the child for an aggregate period of 1 year before the filing of a petition for adoption;

(d) it is proven, to the satisfaction of the court, that the parent is in violation of a court order to support either the child that is the subject of the adoption proceedings or other children with the same birth mother;

(e) the parent has been found guilty by a court of competent jurisdiction of:

(i) aggravated assault on the adoptee, as provided in 45-5-202;

(ii) sexual assault on a child, as provided in 45-5-502;

(iii) sexual intercourse without consent, as provided in 45-5-503, if the victim was a child;

(iv) incest, as provided in 45-5-507, if the victim was a child;

(v) homicide of a child, as provided in 45-5-102 or 45-5-103;

(vi) sexual abuse of a child, as provided in 45-5-625; or

(g) a finding is made for a parent who is given proper notice of hearing:

(i) that the parent has been convicted of a crime of violence or of violating a restraining or protective order; and

(ii) the facts of the crime or violation and the parent's behavior indicate that the parent is unfit to maintain a relationship of parent and child with the child;

(h) a finding is made for a parent who is given proper notice of hearing and is a respondent to the petition to terminate parental rights and:

(i) by a preponderance of the evidence, it is found that termination is in the best interests of the child; and

(ii) upon clear and convincing evidence, it is found that one of the following grounds exists:

(A) if the child is not in the legal and physical custody of the other parent, that the respondent is not able or willing to promptly assume legal and physical custody of the child and to pay for the child's support in accordance with the respondent's financial means;

(B) if the child is in the legal and physical custody of the other parent and a stepparent who is the prospective adoptive parent, that the respondent is not able or willing to promptly establish and maintain contact with the child and to pay for the child's support in accordance with the respondent's financial means;

(C) placing the child in the respondent's legal and physical custody would pose a risk of substantial harm to the physical or psychological well-being of the child because the circumstances of the child's conception, the respondent's behavior during the mother's pregnancy or since the child's birth, or the respondent's behavior with respect to other children indicates that the respondent is unfit to maintain a relationship of parent and child with the child; or

(D) failure to terminate the relationship of parent and child would be detrimental to the child.

(2) In making a determination under subsection (1)(h)(ii)(D), the court shall consider any relevant factor, including the respondent's efforts to obtain or maintain legal and physical custody of the child, the role of other persons in thwarting the respondent's efforts to assert parental rights, the respondent's ability to care for the child, the age of the child, the quality of any previous relationship between the respondent and the child and between the respondent and any other children, the duration and suitability of the child's present custodial environment, and the effect of a change of physical custody on the child."

CHAPTER NO. 570

[HB 648]

AN ACT REQUIRING THE DEPARTMENT OF JUSTICE TO ISSUE NEW NUMBER PLATES FOR MOTOR VEHICLES EVERY 4 YEARS BEGINNING JANUARY 1, 2000; AMENDING SECTION 61-3-332, MCA; AND PROVIDING AN EFFECTIVE DATE AND AN APPLICABILITY DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 61-3-332, MCA, is amended to read:

"61-3-332. Number plates. (1) A motor vehicle that is driven upon the streets or highways of Montana must display both front and rear number plates, bearing the distinctive number assigned to the vehicle. The number plates are in 10 series: one series for owners of motorcars, one for owners of motor vehicles of the motorcycle or quadricycle type, one for trailers, one for trucks, one for dealers in vehicles of the motorcycle or quadricycle type that bear the distinctive letters "MCD" or the letters "MC" and the word "DEALER", one for franchised dealers in new motorcars (including trucks and trailers) or new and used motorcars (including trucks and trailers) that bear the distinctive letter "D" or the word "DEALER", one for dealers in used motorcars only (including used trucks and trailers) that bear the distinctive letters "UD" or the letter "U" and the word "DEALER", one for dealers in trailers and/or semitrailers (new or used) that bear the distinctive letters "DTR" or the letters "TR" and the word "DEALER", one

for dealers in recreational vehicles that bear the distinctive letters "RV" or the letter "R" and the word "DEALER", and one for special license plates. All markings for the various kinds of dealers' plates must be placed on the number plates assigned to the dealer, in the position that the department designates.

(2) All number plates for motor vehicles must be issued for a ~~minimum~~ *maximum* period of 4 years, bear a distinctive marking, and be furnished by the state. In years when number plates are not issued, the department shall provide nonremovable stickers hearing appropriate registration numbers that must be affixed to the license plates in use.

(3) *(a)* Subject to the provisions of this section, the department shall create a new design for number plates as provided in this section, *and it shall manufacture the newly designed number plates for issuance after December 31, 1999, to replace at renewal, as required in 61-3-312 and 61-3-314, number plates that were displayed on motor vehicles before that date.*

(b) Beginning January 1, 2000, the department shall manufacture and issue new number plates every 4 years.

(4) In the case of motorcars and trucks, plates must be of metal 6 inches wide and 12 inches in length. The outline of the state of Montana must be used as a distinctive border on the license plates, and the word "Montana" and the year must be placed across the plates. Registration plates must be treated with a reflectorized background material according to specifications prescribed by the department.

(5) The distinctive registration numbers must begin with a number one or with a letter-number combination, such as "A 1" or "AA 1", or any other similar combination of letters and numbers. The distinctive registration number or letter-number combination assigned to the vehicle must appear on the plate preceded by the number of the county and appearing in horizontal order on the same horizontal baseline. The county number must be separated from the distinctive registration number by a separation mark unless a letter-number combination is used. The dimensions of the numerals and letters must be determined by the department, and all county and registration numbers must be of equal height.

(6) For the use of tax-exempt motor vehicles, in addition to the markings provided in this section, number plates must bear the following distinctive markings:

(a) For vehicles owned by the state, the department may designate the prefix number for the various state departments. All numbered plates issued to state departments must bear the words "State Owned", and a year number may not be indicated on the plates because these numbered plates are of a permanent nature and will be replaced by the department only when the physical condition of numbered plates requires it.

(b) For vehicles that are owned by the counties, municipalities, and special districts, as defined in 18-8-202, organized under the laws of Montana and not operating for profit, and that are used and operated by officials and employees in the line of duty and for vehicles on loan from the United States government or the state of Montana to, or owned by, the civil air patrol and used and operated by officials and employees in the line of duty, there must be placed on the number plates assigned, in a position that the department may designate, the letter "X" or the word "EXEMPT". Distinctive registration numbers for plates assigned to

motor vehicles of each of the counties in the state and those of the municipalities and special districts that obtain plates within each county must begin with number one and be numbered consecutively. Because these number plates are of a permanent nature, they are subject to replacement by the department only when the physical condition of the number plates requires it and a year number may not be displayed on the number plates.

(7) On all number plates assigned to motor vehicles of the truck and trailer type, other than tax-exempt trucks and tax-exempt trailers, there must appear the letter "T" or the word "TRUCK" on plates assigned to trucks and the letters "TR" or the word "TRAILER" on plates assigned to trailers and housetrailers. The letters "MC" or the word "CYCLE" must appear on plates assigned to vehicles of the motorcycle or quadricycle type.

(8) Number plates issued to a passenger car, truck, trailer, or vehicle of the motorcycle or quadricycle type may be transferred only to a replacement passenger car, truck, trailer, or motorcycle- or quadricycle-type vehicle. A registration or license fee may not be assessed upon a transfer of a number plate under 61-3-317 and 61-3-335.

(9) For the purpose of this chapter, the several counties of the state are assigned numbers as follows: Silver Bow, 1; Cascade, 2; Yellowstone, 3; Missoula, 4; Lewis and Clark, 5; Gallatin, 6; Flathead, 7; Fergus, 8; Powder River, 9; Carbon, 10; Phillips, 11; Hill, 12; Ravalli, 13; Custer, 14; Lake, 15; Dawson, 16; Roosevelt, 17; Beaverhead, 18; Chouteau, 19; Valley, 20; Toole, 21; Big Horn, 22; Musselshell, 23; Blaine, 24; Madison, 25; Pondera, 26; Richland, 27; Powell, 28; Rosebud, 29; Deer Lodge, 30; Teton, 31; Stillwater, 32; Treasure, 33; Sheridan, 34; Sanders, 35; Judith Basin, 36; Daniels, 37; Glacier, 38; Fallon, 39; Sweet Grass, 40; McCone, 41; Carter, 42; Broadwater, 43; Wheatland, 44; Prairie, 45; Granite, 46; Meagher, 47; Liberty, 48; Park, 49; Garfield, 50; Jefferson, 51; Wibaux, 52; Golden Valley, 53; Mineral, 54; Petroleum, 55; Lincoln, 56. Any new counties must be assigned numbers by the department as they may be formed, beginning with the number 57.

(10) Each type of special license plate approved by the legislature, except collegiate license plates authorized in 61-3-463, must be a separate series of plates, numbered as provided in subsection (5), except that the county number must be replaced by a nonremovable design or decal designating the group or organization to which the applicant belongs. Unless otherwise specifically stated in this section, the special plates are subject to the same rules and laws as govern the issuance of regular license plates, must be placed or mounted on a vehicle owned by the person who is eligible to receive them, and must be removed upon sale or other disposition of the vehicle. The special license plates must be issued to national guard members, former prisoners of war, persons with disabilities, reservists, disabled veterans, survivors of the Pearl Harbor attack, veterans of the armed services, or veterans of the armed services who were awarded the purple heart medal, who comply with the following provisions:

The commanding officer of each armed forces reserve unit shall issue to each eligible member of the reserve unit a certificate authorizing the issuance of special license plates, numbered in sets of two with a different number on each set. The member shall surrender the plates to the department upon becoming ineligible to use them.

(c) (i) A resident of Montana who is a veteran of the armed forces of the United States and who is 100% disabled because of an injury that has been determined by the department of veterans affairs to be service-connected may, upon presentation to the department of proof of the 100% disability, be issued:

(A) a special license plate under this section with a design or decal displaying the letters "DV"; or

(B) one set of any other military-related plates that the disabled veteran is eligible to receive under this section.

(ii) The fee for original or renewal registration by a 100% disabled veteran for a passenger vehicle or a truck with a GVW-rated capacity of 1 ton or less is $5 and is in lieu of all other fees and taxes for that vehicle under this chapter.

(iv) A disabled veteran is not entitled to a special disabled veteran's license plate for more than one vehicle.

(d) A Montana resident who is a veteran of the armed forces of the United States and was captured and held prisoner by a military force of a foreign nation, documented by the veteran's service record, may upon application and presentation of proof be issued special license plates, numbered in sets of two with a different number on each set, with a design or decal displaying the words "ex-prisoner of war" or an abbreviation that the department considers appropriate.
